Discretionary Entitlement/Zone Change/Subdivision Application Packet – Table of Contents

County of Ventura • Resource Management Agency • Planning Division
800 South Victoria Avenue, Ventura, CA 93009 • 805 654-2488 • www.vcrma.org/divisions/planning

Section I - Entitlement/Zone Change/Subdivision Application Introduction, General Instructions, and Advisories

I.A.	Introduction/General Instructions	1
I.B.	Advisory Information.....	3
I.C.	County Staff Who Review Discretionary Permit Applications.....	6

Section II - Checklist of Requirements for Discretionary Entitlement Application Plans, Subdivision Parcel and Tract Maps, and Parcel Map Waiver (Environmental and Mobilehome Park Conversion Subdivisions) Sketch Maps

II.A.	Site Plans/Preliminary Grading Plans.....	1
II.B.	Conceptual Landscape Plan.....	9
II.C.	Building Elevations	11
II.D.	Floor Plans.....	13
II.E.	Tentative Subdivision Maps (Tentative Parcel Maps, Conditional Certificates of Compliance, and Tract Maps)	
13 II.F.	Sketch Map and Sketch Map Overlay Requirements for Parcel Map Waivers (Environmental and Mobilehome Park Conversion Subdivisions).....	17
II.G.	Plan/Map Reduction Requirement.....	18

Section III - Entitlement/Zone Change/Subdivision Application Questionnaire

III.A.	Requested Entitlement, Zone Change, and/or Subdivision	1
III.B.	Project Description Summary	1
III.C.	Assessor Parcel Numbers (“APNs”) and Project Site Location	1
III.D.	Primary Contact Information	2
III.E.	Applicant, Property Owner, and Consultant Information	2
E.1	Applicant	2
E.2.	Property Owner	3
E.3	Architect	3
E.4	Civil Engineer	3

E.5	Licensed Land Surveyor.....	3
E.6	Land Use Consultant.....	3
	Levine Act Campaign Contribution Disclosure Form.....	3a
	Authorization of Agent (Property Owner)	4
	Authorization of Agent (Permittee)	5

III.F. Project Description.....	6
F.1 Entitlements, Zone Change, and/or Approvals	6
F.2 Project Phasing/Duration.....	9
F.3 Self-Imposed Restrictions	9
F.4 Dedications/Easements.....	10
F.5 Water Supply.....	10
F.6 Sewage Disposal.....	12
F.7 Groundwater Resources	13
F.8 Surface Water Quality	14
F.9 Floodplain Management.....	16
F.10 Geology, Site Grading, and Drainage	17
F.11 Trip Generation	19
F.12 Hazardous Materials/Waste and Fire Protection.....	21
F.13 Noise.....	22
F.14 Lighting	23
F.15 Utilities	24
F.16 Agricultural Resources.....	25
F.17 Solid Waste, Recycling, Greenwaste, and Composting Operations	26
F.18 Air Quality	27
F.19 Commercial, Agricultural, Institutional and Industrial Projects Operational Characteristics	28
F.20 Tract Map, Parcel Map, and Parcel Map Waivers (Environmental and Mobilehome Park Conversion Subdivisions) Supplemental Information.....	31
F.21 Legal Lot Requirement.....	32
F.22 Existing Physical Features and Development on, and Surrounding, the Project Site	32
F.23 Cultural Resources	34
F.24 Biological Resources	35
F.25 Protected Trees	36

Section I – Discretionary Entitlement/Zone Change/Subdivision Application Introduction, General Instructions, and Advisories

County of Ventura • Resource Management Agency Planning Division
800 S. Victoria Avenue, Ventura, CA 93009 805 654-2488 www.vcrma.org/divisions/planning

I.A. Introduction/General Instructions

The information and materials¹ requested in this application packet may be required by County staff in order to: (a) deem your application complete, thus allowing for the preparation of an Initial Study and a determination as to the type of environmental document that is required for your project;² (b) assess your project's consistency with the rules and regulations that apply to the discretionary entitlement(s), subdivision(s), and zone change(s) for which you are requesting approval; and, (c) process your application as quickly as possible.³

Although all of the questions and informational requests in this application packet might not apply to your project, carefully review these documents in their entirety to ensure that you provide the requisite information and materials for your application. In addition, please be advised that:

- **All permit processing and outstanding fees must be paid in full** at the time at which you submit your application;⁴
- **One original and one copy of a “Fee Reimbursement Agreement”** must be completed, signed by the property owner(s), and submitted with all applications; and,
- All required information must be submitted as part of a single submission; partial submissions will result in the return of your application packet.

This application packet includes required materials, as well as instructions on where to obtain and how to prepare, supplemental materials that are needed to file an application for a discretionary entitlement, subdivision, and/or zone change. This application packet includes:

- “Checklist of Requirements for Discretionary Entitlement Application Plans, Subdivision Parcel and Tract Maps and Parcel Map Waiver (Environmental and Mobilehome Park Conversion Subdivisions) Sketch Maps” form, which is a checklist of the submittal requirements

¹ With the exception of headings and titles, fees and supplemental materials that are required with your application are indicated in **bold** font in these instructions, as well as the “Discretionary Entitlement/Subdivision/Zone Change Questionnaire” and “Requirements for Discretionary Entitlement Application Plans, Subdivision, Parcel and Tract Maps and Parcel Map Waiver (Environmental and Mobilehome Park Conversion Subdivisions) Sketch Maps” documents

² *County of Ventura County Administrative Supplement to the State CEQA Guidelines* (Last Amended July 13, 2010, §5.1), *Ventura County Initial Study Assessment Guidelines* (April 2011), and the *State CEQA Guidelines* [California Code of Regulations, Title 14, Chapter 3, §15063].

³ For a discussion of, as well as the policies, ordinances, and regulations related to, the discretionary entitlement, subdivision, and legislative action process, please see the following website: <https://www.vcrma.org/discretionary-approvals>. For a discussion of, as well as the policies, ordinances, and regulations related to, the environmental review process, please see the following website: <https://www.vcrma.org/ceqa-implementation-and-initial-study-assessment-guidelines>.

⁴ For information on the fees that are required to process your application, please see the following website: <https://www.vcrma.org/ceqa-implementation-and-initial-study-assessment-guidelines>

for project plans and subdivision maps;

- “Discretionary Entitlement/Zone Change/Subdivision Application Questionnaire,” which identifies supplemental technical reports, studies, and information that must be submitted as part of your application. Please be aware that *any missing information* will result in a determination that your application is inadequate and all materials will be returned to you. County staff will begin processing your application when your application includes all of the materials and information that are required, as determined by the Planning Division’s Permit Coordinator;
- “Fee Reimbursement Agreement” form; and,
- “Certification Statement of Hazardous Waste/Substance Site” form.

Please be advised that submitting these materials does not guarantee that your application will be deemed technically adequate and it has satisfied all applicable Federal, state, and local development standards and codes. County agencies still must conduct technical reviews of your reports, plans, and application materials and will inform you if their agency concludes that any required information is missing. If technical information about your project is inadequate, it can add additional time to the overall approval process.

If your land-use project is appealed, please be aware that you may be responsible for all or a portion of the costs required to process the appeal. For appeals of projects unrelated to a violation and located within the non-coastal zone, the following applies:

- A fee of \$1,000 will be required of the project appellant at the time the appeal is submitted.
- Appellants who are also project applicants will be responsible for all charges for staff time to process the appeal.
- Where the appellant is not the project applicant, the appellant will be responsible for the initial \$1,000 and the applicant will be responsible for actual staff time and costs in excess of the initial \$1,000 appeal fee up to a maximum of \$1,000.
- Where the appeal is fully upheld, the full fee for the appeal will be refunded. If upheld in part, the decision-making body will determine how much of the costs will be refunded.

For projects located within the coastal zone, no fee will be charged for appeals of a project that is appealable to the Coastal Commission, unless the Coastal Commission approves an ordinance amendment authorizing a fee, per the California Coastal Act. If the Coastal Commission authorizes a fee, said fee would be a \$1,000 deposit/billing limit. If the appeal is related to a violation, there is no billing limit.

Prior to submitting your application, it is imperative that you fully familiarize yourself with the laws, ordinances, regulations, policies, and procedures that apply to your application, and consult with appropriate experts (e.g., land use consultant, architect, civil engineer, floodplain specialist, geologist, or biologist) that can assist you in preparing the necessary reports, plans, studies, and other documentation normally required to process your application. *Although County staff are available to provide assistance, ultimately it is your, and your consultant’s, responsibility to ensure that the requisite information and materials are complete and included in your application packet.* For a fee,

you may request a presubmittal review from an Agency or Department. (The estimated minimum time for a presubmittal review is two weeks.) County staff (i.e., subject matter experts) who are responsible for reviewing your application are listed in Subsection I.C (pg. 5)).

I.B. Advisory Information

Please be aware that certain areas of the County are subject to prohibitions on development and/or are subject to General Plan policies and Zoning Ordinance regulations that may preclude County staff from making a recommendation of approval to decision-makers on certain types of projects. Therefore, please review the following information prior to preparing an application to determine if the proposed project is subject to any of these prohibitions on development, policies, or regulations:⁵

- **Zoning Violations:** Pursuant to the Ventura County Non-Coastal Zoning Ordinance (8111-2.2.f), the Ventura County Coastal Zoning Ordinance (§8181-5.1.e), and the Ventura County Subdivision Ordinance (§§8205-6.3, 8209-1, 8210-1, and 8211-2.1), an application for any of the following shall not be processed if a violation of Division 8, Chapters 1 (Ventura County Non-Coastal and Coastal Zoning Ordinances) or 2 (Ventura County Subdivision Ordinance), of the Ventura County Code exist on the subject property, unless the acceptance of the application is necessary to abate the existing violation: new entitlement; time extension of an existing entitlement whose initial term has expired; subdivision; or, zone change. An application for a discretionary entitlement, subdivision, or zone change shall not be accepted for processing if a Notice of Violation is in effect on the subject property—unless the discretionary entitlement, subdivision, or zone change is required in order to abate the violation that is the subject of the Notice of Violation.
- **Illegal Lots:** Pursuant to state law [Government Code, §66499.30(a) and §66499.30(b)] the Ventura County Non-Coastal Zoning Ordinance (§§8101-3.4 and 8111-1.2.1.1.f) and the Ventura County Coastal Zoning Ordinance (§§8171-4.4, 8175-5.1a, and 8181-2), a discretionary entitlement can be approved only for projects that would be located on a legal lot. In addition, pursuant to the Ventura County Subdivision Ordinance [§8209-3(a) and §8210-3(a)], lot line adjustments and certain voluntary mergers can only occur with legal lots. For more information on how to determine if a project site would be located on a legal lot, please see <https://vcrma.org/en/legal-lot-program>.
- **Abandoned Water Wells:** Pursuant to the County of Ventura's current Groundwater Conservation Ordinance (§4819.A), if an abandoned water well exists within the proposed project area, you must obtain a well destruction permit from the Ventura County Watershed Protection District and destroy the well, prior to submission of an application for a discretionary entitlement, subdivision, or legislative action. In addition, an application for a discretionary entitlement, subdivision, or legislative action shall not be accepted for processing if a Notice of Non-Compliance is in effect on the subject property—unless the discretionary entitlement, subdivision, or legislative action is required in order to abate the violation that is the subject of the Notice of Non-Compliance.

⁵ The following list does not constitute an exhaustive list of the moratoria, policies, and regulations that could result in County staff making a recommendation of denial of your application to decision-makers.

- Carlisle Canyon Area: No new buildings or additions to existing buildings are allowed west of the western terminus of the public road. In addition, no subdivisions are allowed due to a single access route in this area. For more information on the moratorium, please contact the Ventura County Fire Protection District using the contact information provided in Subsection 1.C., below.
- Santa Susana Knolls Area: Due to a water shortage in the Alta Vista Zone, building permits for new dwellings will not be issued until the City of Simi Valley, Water District 8, can supply additional water. For more information, please contact the Ventura County Fire Protection District using the contact information provided in Subsection 1.C., below.
- Moorpark Home Acres Area: No subdivisions are currently allowed due to a single access route from Los Angeles Avenue (State Route 118). For more information, please contact the Ventura County Fire Protection District using the contact information provided in Subsection 1.C., below.
- Traffic Impact Areas: Due to inadequate roadway and/or unacceptable traffic conditions, the following areas may be subject to restrictions on new development:
 - La Conchita area, Oceanview area above La Conchita.
 - State Route 33 Traffic Impact Area.

For additional information regarding the traffic- and roadway-related restrictions within these areas, please contact the Public Works Agency, Roads and Transportation Department using the contact information provided in Subsection I.C, below.

- El Rio/Saticoy Areas - Oxnard Forebay Septic System Prohibition: The Los Angeles Regional Water Quality Control Board adopted an order which prohibits the discharge of septic systems in the Oxnard Forebay (i.e., El Rio and Saticoy areas). The Environmental Health Division is precluded from approving new septic systems and expansions of existing systems. For more information, please contact the Environmental Health Division using the contact information provided in Subsection I.C., below.
- Nitrate Impacted Groundwater Basins (e.g., Santa Rosa Valley): Minimum lot sizes (i.e., lot sizes that exceed the minimum lot size allowed by the zoning designation of the property) may be required for projects proposing to utilize on-site wastewater treatment systems in nitrate impacted groundwater basins. The project shall be subject to the limitations of the “nitrate formula” as defined by the Watershed Protection District, Water Resources Division.
- Biological Resources: Projects that are located on land that contain native vegetation or trees, are adjacent to land that contains native vegetation or trees, or are located within 300 feet of a watercourse, drainage, or wetland may require an Initial Study Biological Assessment (ISBA). To be sure that an ISBA is needed, it is advised that the Planning Division be consulted prior to application submittal. If an ISBA is needed, a biological consultant from the Planning Division’s list of Qualified Biologists may be contracted to conduct a survey and complete an ISBA report in the Planning Division’s standard report format. The biologists on this list have already demonstrated their qualifications and signed Memorandum of Understanding for Preparation of

Initial Study Biological Assessments. Prior to hiring a biologist that is not on the list of Qualified Biologists, it is recommended that the biologist contact the Planning Division in order to demonstrate their qualifications and to get a copy of the Planning Division's ISBA formatted report. Failure to demonstrate the biologist's qualifications and/or not preparing the ISBA in Planning Division's format will result in costly peer reviews and the need to reformat the ISBA. After the first survey, the biological consultant will know whether any focused surveys for special-status plants or animals are necessary to complete the ISBA report. It is important to note that, if focused surveys are necessary, these surveys are often restricted to a specific time of the year. For instance, botanical surveys are conducted during the blooming period, which is typically in the spring. It is particularly important to start the biological surveys early in the planning process to provide time for any necessary focused surveys and to design the project to avoid impacts to significant biological resources. Avoiding impacts to biological resources can save time and money during the environmental review and permitting process.

- Sensitive Plant Surveys: Projects that are located within areas of intact/pristine native vegetation and, consequently, have the potential to adversely impact endangered, threatened, or rare plant species, plant species that are included on the Ventura County List of Locally Important Species, or California Native Plant Society listed species, will require the preparation of a sensitive plant survey by a qualified biologist. The sensitive plant survey must be conducted during the flowering period(s)—typically springtime—of the species that are likely to occur within the project site. The sensitive plant survey must be conducted prior to completion of an Initial Study for the project; therefore, unless a sensitive plant survey has recently been conducted on the project site, the preparation of a sensitive plant survey could delay the processing of your application. For more information on the rules, regulations, and procedures for analyzing potential impacts to biological resources, please see: <https://vcrma.org/en/biological-resources>.
- Overlay Zones: Specific standards have been developed for areas that lie within an overlay zone. Projects located within such zones will be required to demonstrate compliance with applicable regulations of Article 9 of the Ventura County Non-Coastal Zoning Ordinance and with Section 8173-13 of the Ventura County Coastal Zoning Ordinance.
- Dark Sky Lighting Regulations (Ojai Valley): Projects that are located within the Ojai Valley Municipal Advisory Council (MAC) boundary are subject to specific outdoor lighting regulations, the intention of which to be able to protect the view of night sky and stars, minimize light pollution, protect against direct glare and excessive lighting, provide standards for efficient and moderate use of lighting, and promote energy efficient outdoor lighting. Projects within the Ojai Valley MAC boundary that include any new installation of outdoor lighting or replacement of existing outdoor lighting will be required to demonstrate compliance with Section 8109- 4.7 of the Ventura County Non-Coastal Zoning Ordinance, and may require the submittal of a lighting plan.

- Discretionary Entitlement Application Plans
- Subdivision Maps
- Parcel Map Waiver Sketch Maps

County of Ventura Resource Management Agency • Planning Division
 800 South Victoria Avenue, Ventura, CA 93009 805 654-2478 <https://vcrma.org/divisions/planning>

II.A. Site Plans/Preliminary Grading Plans

Applicability

The following checklist outlines the submittal requirements for site/preliminary grading plans for discretionary land use entitlement (e.g., Planned Development Permits and Conditional Use Permits) applications. If your project requires the approval of a discretionary land use entitlement, you must submit a site/preliminary grading plan that meets the requirements listed below.

If your project only involves a subdivision (e.g., Tentative Tract Map or Tentative Parcel Map) and does not require an accompanying discretionary land use entitlement, you do not need to submit a site/preliminary grading plan; proceed to either:

- Section II.D if you are applying for a Tentative Tract Map or Tentative Parcel Map; or
- Section II.E if you are applying for an Environmental Subdivision or a Mobilehome Park Conversion Subdivision.

Site/Preliminary Grading Plan Requirements Site/preliminary grading plans must comply with the following requirements:

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
Submittal Requirements	
1.. <i>Submit a digital copy of the site/preliminary grading plans on a thumb drive.</i> GIS or CAD files of the plans should be provided unless the plans were not prepared using AutoCAD, in which case a PDF of the plans will suffice. The accepted format of the plans is as follows (in order of preferred format): (1) GIS files; (2) CAD files; and (3) Digital files (PDF, JPG, TIF). The files shall be in the following format: <ul style="list-style-type: none"> • CAD files in DWG format; • CAD or GIS files in the Ventura County standard projection: NAD 1927 State Plane CA Zone V (feet); and, • CAD or GIS files with only grading limit lines (daylight lines) and proposed structures. 	<input checked="" type="checkbox"/>
Dimension/Orientation Requirements	
2. <i>Site plans must comply with the following dimensional and orientation requirements:</i>	
a. Site Plans must be a minimum of 24 x 36 inches in size.	<input checked="" type="checkbox"/>
(1) For projects that are proposed on large lots (i.e., 20 acres or larger in size), include an enlargement/detailed drawing of the areas of proposed development.	
b. Site Plans must be oriented such that the northerly side of the project site is at the top of the site plan.	<input checked="" type="checkbox"/>

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
c. Site Plans must be drawn such that they are legible, and must be drawn using an engineer's scale within the range of 1 inch = 10 feet to 1 inch = 200 feet.	☒
Title Block Requirements	
3. <i>Site plans must include a title block that complies with, or includes, the following:</i>	
a. Title blocks should be located in the lower right-hand corner of the site plan, unless an alternative location exists that would make the title block more legible (e.g., the right-hand side of the site plan).	☒
b. All text within the title block must be large enough to be legible (e.g., 12 point font).	☒
c. Name and mailing address of the:	
(1) Property owner.	☒
(2) Engineer.	
(3) Architect.	
(4) Other consultants or representatives (e.g., land use consultant).	
d. Identify which individual listed in Items 3.c(1) through 3.c(4) (above) will serve as the contact person for the project.	☒
e. Assessor's Parcel Numbers of all Tax Assessor Parcels on which the project site is located.	☒
f. Project site address (if any).	
g. Date that the site plan was prepared. ¹	☒
h. For oil-related development projects, list the name of the drilling company.	
Vicinity Map Requirements	
4. <i>Site plans must include a legible vicinity map that identifies the location of the subject property within the community. The map shall include the following:</i>	
a. North arrow and a graphic and numeric scale.	☒
b. Existing street pattern with names (from the property to the first public road) and the nearest cross-street. If the property is 0.5 mile or more from the nearest public road, an approximate distance must be shown.	☒
c. The project site identified by cross-hatching.	☒
Project Information List²	
5. <i>Site plans must include a list of the following project-related information:</i>	
a. General Plan, Area Plan, and Zoning Designation of the project site and adjacent properties. ³	☒
b. Gross and net lot area. ⁴	☒

¹ Any future revisions made to the plans must include a revision schedule that lists the revisions that were made and the date of each revision.

² All recyclable debris generated during construction projects must be recycled or reused per County Ordinance No. 4421, as may be amended, which may be viewed at www.vcpublishworks.org.

³ The land use and zoning designations may be obtained from the Planning Division Public Counter. Alternatively, zoning designation information is available on-line at: <https://vcrma.org/en/what-s-my-zoning>. Land use designation information is available in the Ventura County General Plan Goals, Policies and Programs (2020, Figures 2-4 and 2-5), which is available on-line

⁴ For projects located outside of the coastal zones, see the definition of "gross lot area" and "net lot area," in the Ventura County Non-Coastal Zoning Ordinance (§8102-0). For projects in the coastal zones, see the definition of "net lot area" in the Ventura County Coastal Zoning Ordinance (§8172-1).

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
(1) If the project site constitutes only a portion of the lot on which it is located, provide the size of the project site. ⁵	
c. List or table of all buildings and structures (including equipment for wireless communications facilities) that includes the following information about each:	
(1) Label as to whether or not the building or structure is existing (E) or proposed (P).	
(2) For existing buildings and structures, identify which buildings or structures will be modified (e.g., partially or fully demolished, ⁶ remodeled, or added onto).	
(3) The existing or proposed use of each building or structure, as follows:	
(a) Describe the use of each building and structure using the descriptions provided in the: (a) <i>Ventura County Non-Coastal Zoning Ordinance</i> (§8105-4 and §8105-5) for projects located within inland areas of the County; or, (b) <i>Ventura County Coastal Zoning Ordinance</i> (§8174-4) for projects located within the coastal zone of the County.	
(b) For multi-tenant buildings, provide the occupancy of each unit.	
(4) The gross floor area (GFA) of each building or structure.	
(5) The building coverage size in square feet.	
(6) For existing buildings or structures, indicate the approximate age of the building or structure. ⁷	
d. The total gross floor area (GFA) for all buildings and structures.	
e. The total net building coverage for all buildings and structures. Building Coverage (%) = (Total Area of Building and Structural Coverage) / (Lot Size)	
f. Parking and loading statistics that include the following: ⁸	
(1) Number of required parking spaces.	
(2) Number of proposed parking spaces.	
(3) Number of required loading spaces.	
(4) Number of proposed loading spaces.	
(5) Number of required accessible parking spaces pursuant to CCR Title 24 standards.	
(6) Number of proposed accessible parking spaces pursuant to CCR Title 24 standards.	
g. Existing and proposed outdoor uses, including the type of outdoor use (e.g., open storage, special event, vehicle maintenance, recreational areas, landscaping, and operations yards) and the size of the area dedicated to the outdoor use.	
h. Statistics on the amount of impervious and pervious surfaces, including:	
(1) Permanent and temporary buildings and structures.	
(2) Paved surfaces (e.g., driveways, walkways, parking areas, and loading areas).	
(3) Pervious surfaces and structures (e.g., landscaped areas, grasscrete, or bioswales).	

⁵ If the project site would occur on a leased portion of the subject property, **submit a copy of the lease.**

⁶ All recyclable debris generated from demolition projects (e.g., concrete, asphalt, wood, metal) must be recycled or reused per local, regional, and state laws and regulations. For regulations relating to the disposal, recycling, or reuse of inert materials (e.g. concrete, asphalt, dirt) contact the Ventura County, Resource Management Agency, Environmental Health Division and/or review www.CIWMB.ca.gov/Regulations/Title14/ch3a595a.htm and www.CIWMB.ca.gov/Regulations/Title14/ch3a595b.htm. For more information on the County's requirement to divert recyclable materials, as required by Ordinance 4421, as may be amended go to www.vcpbublicworks.org.

⁷ See Section III, "Discretionary Entitlement/Zone Change/Subdivision Application Questionnaire," Item F.20. Buildings or structures that are at least 50 years old might qualify as historical resources, the impacts to which are required to be analyzed as part of the environmental review of the project.

⁸ For information on the parking requirements for projects located within the Coastal Zone, see the *Ventura County Coastal Zoning Ordinance* (Article 6). For information on the parking requirements for projects located outside of the Coastal Zone, see the *Ventura County Non-Coastal Zoning Ordinance* (Article 8).

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
i. Grading statistics (in cubic yards), including:	
(1) Cut.	
(2) Fill.	
(3) Import.	
(4) Export.	
j. For commercial and industrial projects, statistics on the proposed size of trash, green waste, and recycling enclosures. ⁹	
k. Type and amount (i.e., total surface area in square feet and/or acres) of vegetation removal including (but not limited to) what is required for fire clearance zones. ¹⁰	
l. Protected trees ¹¹ to be removed, altered or encroached upon, including:	
(1) Tree species.	
(2) Girth.	
(3) Indicate whether the tree is located in an easement.	
(4) Action requested (removal, alteration or encroachment).	
m. Provide locations of all existing and proposed outdoor lighting (Required for parcels within the Dark Sky (DKS) overlay zone)	☒
Graphic Illustration Requirements	
6. <i>The following must be graphically illustrated on the site plan and drawn to scale:</i>	
a. North arrow.	☒
b. The scale used in drawing the site plan.	☒
c. All lot lines with dimensions in feet.	☒
d. The footprint, as well as eaves that project into setback areas, of existing and proposed buildings and structures, including the following:	

⁹ Contact the Integrated Waste Management Division at (805) 658-4315 to obtain the County's Space Allocation Guidelines which outline requirements for refuse and recyclables collection and loading areas.

¹⁰ Projects that are located within areas of intact native vegetation and, consequently, have the potential to adversely impact endangered, threatened, or rare plant species, plant species that are included on the Ventura County List of Locally Important Species, or California Native Plant Society listed species, will require the preparation of a sensitive plant survey by a qualified biologist. The sensitive plant survey must be conducted during the flowering period(s)—typically springtime—of the species that are likely to occur within the project site. The sensitive plant survey must be conducted prior to completion of an Initial Study for the project; therefore, unless a sensitive plant survey has recently been conducted on the project site, the preparation of a sensitive plant survey could delay the processing of your application. For more information on the regulations and procedures for analyzing potential impacts to biological resources, see: <http://www.vcrma.org/planning/conservation/bio-resource-review.html>.

¹¹ Projects in the non-coastal zone on private property that involve major pruning, removal, trenching, excavation, or other encroachment into the tree protection zone (the area 5 feet outside the dripline or 15 feet from the trunk, whichever is greater) of protected trees must conform to the County's Tree Protection Ordinance (TPO). Protected trees include all oaks and sycamores 9.5 inches in girth or larger (generally measured 4.5 feet above ground), trees of any species with a historical designation, trees of any species 90 inches in circumference or larger, and most 9.5 inch native trees in the Scenic Resources Protection Zone. You must consider the protected trees that are directly part of your request, as well as other protected trees whose tree protection zones (TPZ) are within 20 feet of the limits of the proposed construction area (including access drives and utility easements) or within 20 feet of other trees proposed for removal. This includes trees growing on adjacent parcels if their TPZ extends onto the subject parcel.

An Arborist Report that conforms to the County's requirements will usually be required as part of the application process. See *Submittal Requirements for Tree Permits and Authorizations* for more information. Approval to remove or alter a protected tree will only be granted under the circumstances outlined in the TPO. If minor pruning can solve a compatibility problem, then tree removal will generally not be approved. *Protected trees may not be removed for aesthetic or view reasons.* Note that it is a violation of the TPO to prune or trim protected trees in a manner that does not adhere to [International Society of Arboriculture standards](#).

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
(1) Label the existing and/or proposed use of buildings and structures and/or provide a clear cross-reference to the respective building or structure in the list of project-related information. ¹²	
(2) The following property features must be shown (if applicable):	
(a) Sewage disposal systems (e.g., onsite wastewater treatment systems, “septic systems”, or grey water systems), including disposal fields, expansion areas, and step systems.	
(b) Both on-site and off-site water wells, including municipal, industrial, or agricultural supply wells that supply water for the project, as well as abandoned wells.	
(c) Underground hazardous materials storage tanks.	
(d) Cisterns.	
(e) Underground water storage.	
e. Setback dimensions (from property lines to structures) and distances between buildings and structures measured in feet.	
f. Delineation and label of the permit area, as well as all areas that would be subject to outdoor uses (e.g., wedding events, temporary or permanent storage yards, landscaping, assembly areas, farmland, and animal keeping activities) and/or restrictive covenants.	☒
g. Delineation and label of construction equipment maintenance and staging areas.	
h. Areas that will be subject to the use, storage, and/or handling of hazardous materials.	
i. Physical features of the site, including:	
(1) Protected trees whose tree protection zones are within 20 feet of the limits of the construction area (including access drives and utility easements) or within 10 feet of other trees proposed for removal. Include (approximate location of) trees on adjacent parcels that meet these criteria if the tree’s protected zone extends over the property line of the subject parcel. Include the following information:	
(a) Location.	
(b) Species.	
(c) Girth of trunk measured at 4.5 feet above natural grade. ¹³	
(d) Approximate delineation of the tree’s dripline.	
(e) Label if the tree is going to be altered or removed.	
(f) Any grade changes or trenching proposed within the tree’s protected zone.	
(g) Number the trees if more than one.	
(2) Approximate delineation of native vegetation on site.	
(3) Location of significant biological resources on site, as identified by an Initial Study Biological Assessment (e.g., special status plants, sensitive plant communities, animal dens or nests, or wetland habitat).	
(4) Delineation of 100-foot setbacks from wetland habitats and/or other recommended setbacks identified in the Initial Study Biological Assessment. ¹⁴	
(5) Existing and proposed utilities (e.g., electrical, water, and sewer lines and/or poles), including the Point of Connection to the facilities that will serve the project.	
(6) Existing and proposed topographic contours.	

¹² See Item 5.c, above.

¹³ The girth measuring position may vary depending upon where the waist of the tree is—the narrowest trunk point is typically the goal—and many other factors. If there are multiple trunks, measure each and add their measurements together; for heritage trees only the two largest trunks are measured.

¹⁴ *Ventura County General Plan*, Conservation and Open Space Element, Policy COS-1.11 requires that discretionary development be sited a minimum of 100 feet from wetland habitats.

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
(7) Existing and proposed hydrological conditions/drainage patterns and infrastructure, including (but not limited to) the following:	
(a) Drainage at a minimum 2% slope away from foundations.	
(b) Watershed Protection District facilities.	
(c) Connections to Watershed Protection District, Roads and Transportation Department facilities, and other facilities.	
(d) Detention basins and/or other drainage facilities.	
(e) Surface water quality treatment devices (e.g., bioswales or desiltation basins).	
(f) Additional drainage to public road rights-of-way and road improvements.	
(g) Red and blue line streams, ¹⁵ as well as any other known on-site drainage course.	
(8) Top of stable (hydrological) bank of creeks and drainages.	
(9) Areas with geologic formations that have undetermined, moderate, or high paleontological importance. ¹⁶	
(10) Delineation of the top and bottom (toe) of slopes.	
(11) Delineate and label Geologic Hazard Areas, ¹⁷ (including but not limited to):	
(a) Earthquake Fault Hazard Zones. (Fault Rupture)	
(b) Seismic Hazard Zones. (Liquefaction & Earthquake Landslides)	
(c) Landslides.	
j. Existing and proposed paved areas, including (but not limited to) the type of surfacing, whether it is pervious or impervious, and widths of all walkways.	
k. Location, width, recorded document number, and recorded use of existing and proposed easements.	
l. Existing fire hydrants, including the following:	
(1) Location.	
(2) Type of hydrant (e.g., wet, dry, or drafting).	
(3) Number and size of outlets (i.e., one 4 inch and one 2-1/2 inch).	
m. Location and height of:	
(1) Freestanding light fixtures, with labels indicating the proposed type of the lighting.	
(2) Existing and proposed outdoor light fixtures attached to any exterior surface, including walls, fences, etc. indicating the proposed type of the lighting (Required for parcels within the DKS overlay zone)	☒
(3) Walls (including, but not limited to, retaining walls).	
(4) Fences with a label of the proposed type of fencing (e.g., wood, chain link, CMU, or wire).	
n. For the following types of projects, show the location of existing and proposed signs:	
(1) Commercial and industrial projects.	
(2) Projects located on lots located adjacent to U.S. 101, Ventura Boulevard, State Route 118, State Route 232, Rose Avenue, Santa Clara Avenue, and Central Avenue (within the El Rio/Del Norte Area Plan boundary).	

¹⁵ Information on the location of red and blue line streams may be obtained from the Resource Management Agency GIS Department. Contact Mr. Jose Moreno, M.A., GISP, GIS Supervisor, at (805) 477-1585, or jose.moreno@ventura.org, to obtain this information.

¹⁶ See the *Ventura County Initial Study Assessment Guidelines* (2011, Chapter 9) for a list of the geologic formations that have undetermined, moderate, or high importance.

¹⁷ For a definition and maps identifying the location of Geologic Hazard Areas, see the *Ventura County General Plan Hazards Appendix* (2005), available at: <http://www.vcrma.org/planning/plans/general-plan/index.html>.

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
(3) Projects located within the Scenic Resources Protection (SRP) Overlay Zone.	
(4) Projects located within view of State Highway 126, Main Street, Center Street, Piru Canyon Road, Guiberson Road, and Torrey Road (within the Piru Area Plan boundary).	
o. For commercial and industrial projects, as well as residential projects located adjacent to or within wildlife habitat areas, show the location, height, and size of trash, green waste, and recycling enclosures. ¹⁸	
p. Roadway and parking features including:	
(1) Adjacent and on-site public and private streets with the following information shown for both the existing streets and proposed roadway improvements:	
(a) Delineation of the right-of-way for public streets and easement line with the recorded document number for private streets (map citation).	
(b) Street name.	
(c) Cross section of the existing road and proposed road improvements.	
(d) Edge of pavement and/or concrete.	
(e) Street frontage features (e.g., curbs, gutters, and sidewalks).	
(f) Lane configurations.	
(g) Signage, including on-site and adjacent roadway traffic signs.	
(h) Traffic signals.	
(i) Street lights.	
(j) Utility poles.	
(k) Bicycle lanes.	
(l) Pedestrian crossings.	
(m) Islands and medians.	
(n) Areas to be dedicated for road-widening purposes.	
(o) Existing and proposed curb cuts (e.g., driveway and private roadway entrances from the road to the project site).	
(p) Identify the Ventura County Roadway Plate that was used to design the roadway, in order to achieve consistency with the Ventura County's Roadway Standards and the Ventura County Fire Protection District's access standards.	
(q) Any improvements that would require an Encroachment Permit from the Transportation Department (e.g., trenching for the placement of utilities or pipelines).	
(2) Access road(s)/driveway(s) features including: ¹⁹	
(a) Location.	
(b) Width.	
(c) Surface type.	
(d) Proposed grades.	
(e) Ventura County Fire Protection District turnarounds.	
(f) Existing and proposed access road gate locations.	
(g) If the project involves the use of off-site access roads/driveways, show the public right-of-way or recorded ingress/egress easement locations. Copies of easements may be required prior to project approval.	

¹⁸ Contact the Integrated Waste Management Division at (805) 658-4315 to obtain the County's Space Allocation Guidelines which outline the requirements for refuse and recyclables collection and loading areas.

¹⁹ For all projects in which the project site is not located adjacent to a public road right-of-way, **submit documentation (e.g., a recorded access easement/title report)** that demonstrates legal access to the property from the nearest public road.

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
(h) Sight distance. ²⁰	
(i) If the project involves existing and/or proposed lighting along any access roads/driveways, show the light fixture specifications, including the height and the type of lighting (Required for parcels within the DKS overlay zone)	☒
(3) Layout and dimensions of the parking area, including: motor vehicle, motorcycle, carpool, and bicycle parking spaces; drive aisles and direction of travel; stacking areas; loading spaces; and, required landscaping.	
(4) Number the parking spaces and provide the total number of parking spaces.	
(5) For commercial, agricultural, recreational, industrial, or multi-family residential projects, also include the following:	
(a) Identify parking spaces for:	
i. Accessible parking spaces, pursuant to CCR Title 24 requirements.	
ii. Compact vehicles.	
iii. Bicycles.	
iv. Motorcycles.	
(b) Arrows to show the direction of traffic flows.	
(c) Off-street loading spaces and facilities.	
(d) Concrete curbing.	
q. Oil wells if the project would result in an oil well located closer than 500 feet to a dwelling.	
r. Show existing and proposed accessible path(s) of travel from public ways to all buildings, pursuant to CCR Title 24 requirements.	
s. Areas of vegetation removal including (but not limited to) what is required for:	
(1) Fire protection purposes. Delineate the 100 foot brush clearance limit line around all buildings if there is natural brush within 100 feet of any building. Delineate the limit line on adjacent lots if the 100 foot zone crosses a lot line.	
(2) Buildings and structures.	
(3) Landscaping.	
7. For projects located within a FEMA-designated Special Flood Hazard Area (100-year floodplain), submit a digital copy of a floodplain site plan, which includes the following information:²¹	
a. List the National Flood Insurance Program (NFIP) FIRM number, panel, suffix, and dates of the Effective (current approved) and any Preliminary Map.	
b. Accurately delineate the FEMA floodplain boundary, and Regulatory Floodway boundary as determined on the current-approved "Effective" Flood Insurance Rate Map (FIRM), and most recently released Preliminary FIRM to be completed by either a California licensed civil engineer or architect.	
c. Topography must be drawn at one-foot contour intervals, unless impractical.	
d. For projects located immediately outside of FEMA-designated floodplain areas (within 100 feet of a floodplain boundary), topographic contour lines must be drawn within a range of 1 to 10 foot contour intervals.	

²⁰ For information on the sight distance requirements, see the Roads and Transportation Department's "Sight Distance" brochure, which is available on-line at: <http://vcpublicworks.org/transportation-department/citizen-brochures>.

Also, see the *Ventura County Non-Coastal Zoning Ordinance* (§8106-8.4) for projects located within inland areas of the County, and the *Ventura County Coastal Zoning Ordinance* (§8175-3.8, §8172-1, and §8175-3.11) for projects located within the Coastal Zone.

²¹ County of Ventura Floodplain Management Ordinance; Title 44 Code of Federal Regulations Sections 59, 60, 65 and 70.

Site/Preliminary Grading Plan Requirement and/or Informational Item	Required
e. Identify and label existing and proposed habitable and non-habitable structures above and below ground tanks, utilities, site grading, and temporary and permanent construction and non-construction storage areas.	
f. Identify and label any wetland areas, which are located on and immediately adjacent to the subject property, as identified on the County of Ventura's latest available Geographic Information System database.	
g. Label the appropriate FEMA flood zone(s) on the subject property.	
h. Identify the base flood (100-year) elevation using the NGVD 1929 datum.	

II.B. Conceptual Landscape Plan Submittal Requirements

Applicability

The following checklist outlines the submittal requirements for conceptual landscape plans. Conceptual landscape plans must be submitted with the project application for all new and expanding discretionary land uses where landscaping is required or where required landscaping will be modified. This includes commercial, industrial, institutional, assembly uses, and all uses (including multifamily dwellings) with 5 or more parking spaces.

For single- and two-family dwellings, these requirements apply only to the *required part* of the landscape. For multi-family dwellings, these requirements do not apply to private backyards.

Final landscape plans will be required prior to issuance of building permits.

Conceptual Landscape Plan Requirement	Required
Format	
1. <i>Copies: Submit a digital copy of the plan.</i>	<input checked="" type="checkbox"/>
2. <i>Size: Minimum of 24 x 36 inches.</i>	<input checked="" type="checkbox"/>
3. <i>Orientation: Include north arrow shown on each sheet, except detail.</i>	<input checked="" type="checkbox"/>
4. <i>Scale: Plans must be at a scale of 1 inch = 30 feet or larger. For large projects with simple landscapes the scale can be reduced to 1 inch = 40 feet if all symbols are legible, or multiple sheets can be used. Provide bar scale on the plan.</i>	<input checked="" type="checkbox"/>
5. <i>Lettering: All lettering must be legible and 1/8 inch or larger.</i>	<input checked="" type="checkbox"/>
6. <i>Page numbering: Number sheets consecutively: "Sheet ___ of ___"</i>	<input checked="" type="checkbox"/>
7. <i>Simulations: Color photo simulations of the landscape must be provided for projects which could have a visual impact, including cell towers and projects located adjacent to designated or eligible Scenic Highways. Photo simulations must show the landscape's conceptual design including types, sizes and textures of plants; screening; and massing. The photos should be taken from various locations and/or angles from which the public would typically view the site. Before and after photo exhibits should be presented.</i>	
8. <i>Screening elevations: Where screening will be provided by a fence, wall or vegetation, provide scaled elevations, or photo simulations, of the screening.</i>	
9. <i>Note: Symbols/illustrations/simulations representing new plants should convey plant size at approximately 5 years growth.</i>	
10. <i>Title block: Locate on the right-hand edge of each sheet, unless an alternative location would make it more legible. Include:</i>	<input checked="" type="checkbox"/>

Conceptual Landscape Plan Requirement	Required
a. Plan title.	<input checked="" type="checkbox"/>
b. Project title/name.	<input checked="" type="checkbox"/>
c. County project number (if assigned yet).	
d. Assessor's parcel numbers (APNs) of all parcels on which the project is located.	<input checked="" type="checkbox"/>
e. Project address (if any).	
f. Landscape architect's name, license or seal expiration, signature and date signed.	<input checked="" type="checkbox"/>
g. Date of plan.	<input checked="" type="checkbox"/>
Title Sheet	
<i>11. The first sheet of the plan must be a title sheet and include the following:</i>	
a. Name, address, email address, and phone number of: landscape architect; other professionals who worked on plans such as engineers, arborists or surveyors; and the owner/developer.	<input checked="" type="checkbox"/>
b. Notation: "Conceptual Plans For Plan Check Only."	<input checked="" type="checkbox"/>
c. Landscape plans must include <u>lists</u> of the following project-related information:	
(1) Total square footage of: project site, parking area, total landscaped area, parking area perimeter landscaping, parking area interior landscaping (see preferred table format following this table for providing the required information in #1-3 of this section).	<input checked="" type="checkbox"/>
(2) Percentage of: the project site that will be landscaped and the parking area that will be landscaped (see §8108-5.14.5(a) of the VC Non-Coastal Zoning Ordinance). Indicate both the percentage that is required and the percentage that will be provided.	<input checked="" type="checkbox"/>
(3) Number of motor vehicle and motorcycle parking spaces.	<input checked="" type="checkbox"/>
(4) Number, type and approximate size of existing trees to be removed or retained in the irrigated landscape. Indicate those that have protected tree status.	<input checked="" type="checkbox"/>
(5) Number, type and container size of proposed trees.	<input checked="" type="checkbox"/>
Project Concept Notes	
a. It will expedite plan review if the landscape architect includes brief project notes which point out the features in the proposed landscape which achieve the following functions of landscaping. Not all functions of landscaping will be appropriate for all projects.	
(1) Screening.	
(2) Visual relief and/or visual integration.	
(3) Compatibility with community character.	
(4) Shade and improved aesthetics of paved areas.	
(5) Retention and treatment of stormwater.	
(6) Slope stabilization.	
(7) Restoration of disturbed land to its natural state.	
Graphic Illustrations	
<i>12. The following existing or proposed features must be graphically illustrated and called out.</i>	
a. Lot lines (with dimensions in feet), adjacent street names, use and zoning of adjacent properties.	<input checked="" type="checkbox"/>
b. Buildings and structures, driveways, parking areas (stalls must be delineated) pedestrian pathways and other hardscape or non-plantable features. Include feature dimensions.	<input checked="" type="checkbox"/>
c. Features, such as trash enclosures or loading areas, that require landscape screening.	<input checked="" type="checkbox"/>
d. Existing and proposed freestanding and/or attached lighting used for landscaping or hardscaping (e.g. walkways, driveways).	<input checked="" type="checkbox"/>

Conceptual Landscape Plan Requirement	Required
e. Walls, retaining walls, fences. Provide a concept detail of fences, gates, walls, retaining walls and plantable walls showing layout and height.	<input checked="" type="checkbox"/>
f. Utility and access easements, and overhead lines.	<input checked="" type="checkbox"/>
g. Engineered slopes, walls and grades. Indicate the top and toe of all significant slopes.	<input checked="" type="checkbox"/>
h. Important natural features such as drainages and rock outcroppings.	<input checked="" type="checkbox"/>
i. Fuel modification zones.	<input checked="" type="checkbox"/>
j. Existing protected-status trees (including those on adjacent parcels if the tree's protected zone extends over the property line), to be removed or retained, including type and size.	<input checked="" type="checkbox"/>
k. Landscape planters/areas, including a general idea of the proposed plant palette including type and size. Include parking area planter inside dimensions. The plan should demonstrate compliance with specific parking area landscape planter layout and dimensions requirements (see Section 8108-5.14).	<input checked="" type="checkbox"/>
l. New trees, including proposed type and size.	<input checked="" type="checkbox"/>
m. Water harvesting or stormwater management landscape features (labeled). Include planter dimensions.	<input checked="" type="checkbox"/>
n. Landscape design elements (e.g., fountains, sculptures, mounds).	<input checked="" type="checkbox"/>
o. Sight distance triangles at street intersections.	<input checked="" type="checkbox"/>

Preferred table format for providing Title Sheet 11-e (1-3) required data.

Total project site (square feet)		
Total landscaped area (square feet)		
Total parking area, including driveways/aisles (square feet)		
	Required	Provided
Motor vehicle and motorcycle parking stalls (#)		
Trees in interior parking area landscaping (#)		
Trees in perimeter parking area landscaping (#)		
Parking area interior landscaping (square feet)		
Parking area interior landscaping (% of parking area)		
Parking area perimeter landscaping (square feet)		
Total landscaped area (% of project area)		

II.C. Building Elevations

Applicability

The following checklist outlines the requirements for building elevations. If your project does not involve the construction of a new building or any changes to the exterior of an existing building, you do not need to submit building elevations; proceed to Section II.D.

Building Elevations Requirements Building elevations must comply with the following requirements:

Building Elevations Plans Requirement and/or Informational Item	Required
Submittal Requirements	
1. <i>Submit a digital copy of the building elevations.</i>	<input checked="" type="checkbox"/>

Building Elevations Plans Requirement and/or Informational Item	Required
Dimensional Requirements	
2. <i>Building elevations must comply with the following dimensional requirements:</i>	
a. All sheets of the plans for building elevations must be a minimum of 24 x 36 inches in size.	☒
b. All sheets of the plans for building elevations must be drawn to an architectural scale within the range of 1/8 inch = 1 foot to 1/4 inch = 1 foot, unless an alternative scale is required in order to make the plans legible.	☒
Informational Requirements	
3 <i>Building elevations must include the following:</i>	
a. The title block information required on the site plan/preliminary grading plan. ²²	☒
b. Graphic and numeric scale used in drawing the building elevations. ²³	☒
c. Buildings and structures must be labeled to indicate what building or structure is shown on the elevations.	☒
d. Four elevations of the exterior of buildings and structures labeled in terms of the direction the elevation faces (i.e., north, south, east, or west).	☒
e. Building dimensions—both height and width—for each elevation. The heights of buildings and structures must be measured according to the definitions and methodologies stated in the: (a) <i>Ventura County Non-Coastal Zoning Ordinance</i> (§8172-1, §8175-3.13, and §8175-4 et seq) for projects located within the inland areas of the County; or, (b) <i>Ventura County Coastal Zoning Ordinance</i> (§8174-4) for projects located within the Coastal Zone.	☒
f. A description and sample of the colors, materials, and textures of the exterior surfaces of each elevation for projects involving commercial and industrial uses, as well as projects located within Scenic Resource Protection (SRP) Overlay Zone, hillside/ mountainous areas, and Coastal areas.	
g. Architectural treatments (e.g., entrances, windows, lighting, and eaves) shown on each elevation.	☒
h. For commercial and industrial projects, show the signage on each building elevation, as well as all freestanding (e.g., monument) signs, with size dimensions, copy, colors, and lighting details. In addition, a sign program is required for the following projects and, therefore, building elevations and plans for freestanding signs for the following projects also must show the signage on each elevation with size dimensions, copy, colors, and lighting details in conformance with the proposed sign program:	
(1) Projects located on lots located adjacent to U.S. 101, Ventura Boulevard, State Route 118, State Route 232, Rose Avenue, Santa Clara Avenue, and Central Avenue (within the El Rio/Del Norte Area Plan boundary).	
(2) Projects within the Scenic Resources Protection Overlay Zone.	
(3) Projects located within view of State Highway 126, Main Street, Center Street, Piru Canyon Road, Guiberson Road, and Torrey Road (within the Piru Area Plan boundary).	
i. Architectural details of all walls, fences, and gateposts, including the height dimensions, materials, and colors.	
j. For projects located within a FEMA-designated floodplain, show the base flood elevation plus one-foot freeboard above the base flood elevation on elevation drawings.	
k. Existing and proposed grades.	☒
l. For projects located within the Coastal Zone, submit cross-sections of habitable structures.	

²² See Section II.A, Item No. 4 (above). ²³

See Section II.B, Item No. 2.b (above).

Building Elevations Plans Requirement and/or Informational Item	Required
m. For projects that are located within a Residential Beach Zone (i.e., "RB" or "RBH" zone), submit a roof plan.	
n. Height of all existing and proposed freestanding or attached outdoor light fixtures, with specifications on the shielding and type of lighting (Required for parcels in the DKS Overlay Zone)	☒

II.D. Floor Plans

Applicability

The following checklist outlines the requirements for floor plans. If your project does not involve the construction of a new building or a remodel of an existing building, you do not need to submit floor plans; proceed to Section II.E.

Floor Plan Submittal Requirements

Floor plans must comply with the following requirements:

Floor Plans Requirement and/or Informational Item	Required
Submittal Requirements	
1. <i>Submit a digital copy of the floor plans.</i>	☒
Dimensional Requirements	
2. <i>Floor plans must comply with the following dimensional requirements:</i>	
a. All digital copies of the floor plans must be a minimum of 24 x 36 inches in size.	☒
b. All sheets of the floor plans must be drawn to an architectural scale within the range of 1/8 inch = 1 foot to 1/4 inch = 1 foot.	
Informational Requirements	
3. <i>Identify floors, levels, attics, lofts, and basements of the buildings or structures, with labels indicating the building or structure and the proposed use, square footage, occupant load factor and occupant load of each room.</i>	
4. <i>Identify cooking facilities, plumbing fixtures (including sizes of sinks), and other built-in fixtures.</i>	

II.E. Tentative Subdivision Maps (Tentative Parcel Maps and Tract Maps)

Applicability

The following checklist outlines the requirements for tentative subdivision maps. If your project does not involve a Tentative Parcel Map, or Tract Map, you do not need to submit a tentative subdivision map; proceed to Section II.F.

Tentative Subdivision Map Requirements²⁴

²⁴ Prior to preparing a tentative subdivision map, carefully review the design requirements for tentative subdivision maps, which are listed in the *Ventura County Subdivision Ordinance* ((§8205-5).

Tentative subdivision maps must comply with the following requirements:

Tentative Subdivision Map Requirement/Informational Item	Required
Submittal Requirements	
1. <i>Submit a digital copy of the tentative subdivision map.</i>	<input checked="" type="checkbox"/>
Dimensional/Orientation Requirements	
2. <i>Tentative subdivision maps must be legible and comply with the following dimensional and orientation requirements:</i>	
a. Tentative subdivision map sheets shall not exceed 42 inches in size along any side.	<input checked="" type="checkbox"/>
b. All sheets must have a marginal line with a blank 1 inch margin on all sides.	<input checked="" type="checkbox"/>
c. The scale of the tentative subdivision maps shall be 1-inch equals 100 feet or larger. The Planning Director may approve the use of another scale if warranted due to the property size.	<input checked="" type="checkbox"/>
(1) For projects that are proposed on lots that are equal to, or greater than, 20 acres, include an enlargement/detailed drawing of the areas of proposed development.	
Vicinity Map Requirements	
3. <i>Tentative subdivision maps must include a small, yet legible vicinity map (no larger than 5 x 5 inches in size) that illustrates the project site, as well as the following features if they are located within 0.5 mile of the project site:</i>	<input checked="" type="checkbox"/>
a. The major existing circulation pattern and proposed major streets.	
b. Existing major watercourses, including red and blue line channels. ²⁵	
c. Existing Ventura County Watershed Protection District channels.	
Title Block Requirements	
4. <i>In or near the lower right-hand corner of the first sheet, a title block must be included with the following information:</i>	
a. Tentative tract number or tentative parcel map number stated as "Tract No. [INSERT NUMBER]," "Parcel Map No. [INSERT NUMBER]" or (as applicable).	<input checked="" type="checkbox"/>
b. Name and mailing address of the:	
(1) Subdivider.	<input checked="" type="checkbox"/>
(2) Property owner (of the parent parcel).	<input checked="" type="checkbox"/>
(3) Map preparer.	<input checked="" type="checkbox"/>
c. The date the map was prepared.	<input checked="" type="checkbox"/>
d. Legal subdivision designation and record reference.	<input checked="" type="checkbox"/>
e. The total number of lots or parcels to be offered for dedication excluding any remainder parcel and, if there is a remainder parcel, a label stating "Remainder Parcel."	
f. For condominium projects, include the statement: "For Condominium Purposes."	
g. The proposed number and size of the lots. ²⁶ For subdivisions that would create a large number of lots, summarize the number of lots by clustering them according to the proposed range of sizes of the lots.	<input checked="" type="checkbox"/>

²⁵ See Footnote 14.

²⁶ For proposed lots that would rely on septic systems for sewage disposal, and are located within groundwater basins with impaired groundwater quality (e.g., nitrate impacted), be advised that the minimum lot sizes for development must be derived using the County of Ventura Environmental Health Division February 7, 1996, memorandum titled "Model for Determining Nitrate Loading

Tentative Subdivision Map Requirement/Informational Item	Required
Graphic Illustration Requirements	
<i>5. Tentative subdivision maps must graphically illustrate the following information:</i>	
a. North arrow, as well as a graphic and numeric scale at which the map is drawn. ²⁷	<input checked="" type="checkbox"/>
b. All boundary lines of the subdivision with approximate bearings and distances.	<input checked="" type="checkbox"/>
c. The location of each existing lot.	<input checked="" type="checkbox"/>
d. Existing and proposed contour intervals illustrated as follows:	
(1) 1 foot when the slope of ground is less than 5%.	
(2) 2 feet when the slope of ground is between 5 to 10%.	
(3) 5 feet when the slope of ground is between 10 to 25%.	
(4) 10 feet when the slope of ground is greater than 25%.	
(5) At least every 5th contour shall be clearly labeled and indicated so as to be distinctive.	<input checked="" type="checkbox"/>
(6) Contour lines shall be depicted for a sufficient distance beyond the boundary lines of the subdivision to clearly show the relationship of the topography of the subdivision to that of the surrounding land.	<input checked="" type="checkbox"/>
e. The following information must be shown for each proposed lot:	
(1) Proposed individual lot lines.	<input checked="" type="checkbox"/>
(2) Approximate dimensions of the proposed individual lot lines.	<input checked="" type="checkbox"/>
(3) An identifier for each lot based on the following:	
(a) A remainder parcel shall be labeled as a "Remainder Parcel."	
(b) Any parcel to be dedicated or offered for dedication for flood control purposes shall be designated "Parcel X."	
(c) Lots which are to be dedicated or offered for dedication for any purpose other than flood control purposes shall be designated "Parcel" and lettered consecutively commencing with the letter "A." Indicate to whom the parcel is being offered and for what purpose (if known).	
(d) Other lots, including Conservation Parcels and Non-Conservation Parcels, shall be numbered consecutively commencing with the number "one."	<input checked="" type="checkbox"/>
f. The gross area of each proposed individual lot, and the net area of each proposed individual lot 10 acres or smaller in size.	<input checked="" type="checkbox"/>
g. The location of at least one buildable site for each individual lot for which a buildable site is required by the <i>Ventura County Subdivision Ordinance</i> (§8205-5.1) and, by reference, the <i>Ventura County General Plan</i> .	
h. The proposed uses of each proposed individual lot (e.g., single-family, multi-family, commercial, industrial, schools, or parks).	<input checked="" type="checkbox"/>
i. The following that are located within the project site and 100 feet of the proposed subdivision must be shown and labeled to indicate if they will remain or be removed:	
(1) Buildings and structures.	
(2) Fences.	
(3) Tree rows with a label indicating the type(s) of species.	
(4) Protected trees.	

from Septic Systems." The minimum lot size that is required to support a septic system might be greater than the minimum lot size that is allowed for the zone district in which the project site is located. Contact the Watershed Protection District, Groundwater Section to obtain the requirements of the Model for Determining Nitrate Loading from Septic Systems.

²⁷ See Section II.D, Item 2.a(3) (above).

Tentative Subdivision Map Requirement/Informational Item	Required
(5) Existing or abandoned water wells.	
(6) Public utility lines.	
(7) Prominent physical features of the project site.	
(8) Land uses.	
(9) Sewage disposal systems (e.g., onsite wastewater treatment systems, "septic systems", or grey water systems), including disposal fields and expansion areas.	
j. The following gas- and oil-related features must be shown:	
(1) Producing, abandoned, or idle oil wells, labeled as such.	
(2) Oil pipelines.	
(3) Gas pipelines.	
(4) Existing and abandoned oil sumps.	
(5) Existing oil and gas Conditional Use Permit boundaries. ²⁸	
k. The approximate location and direction of flow of watercourses and natural drainage channels, including red and blue line channels.	
l. The width and approximate location of existing and proposed public ²⁹ and private easements and rights of way within and adjacent to the proposed subdivision, including the following information:	
(1) Existing and proposed road right-of-way.	
(2) Existing and proposed road cross sections showing the proposed public and private road right-of-ways and road improvements, with the existing road cross-section and existing public road right-of-way.	
(3) Existing and proposed road right-of-way dedication or easement.	
(4) Existing and proposed road improvements. Include: roadway width; centerline radii; approximate grades at and along the roadway; intersections; turnarounds; and, type of material used. State which County Road Standard Plate was used.	
m. The location within and outside of the proposed subdivision of proposed and existing public and private:	
(1) Storm drain lines, pipes, and ditches.	
(2) Storm drain inlets and outlets.	
(3) Drainage easements.	
(4) Utility easements.	
n. Necessary off-site access from the proposed subdivision to the nearest public road, including the following information:	
(1) Width.	
(2) Location.	
(3) Sight distance.	
o. Delineation of Special Flood Hazard Areas based in accordance with the Floodplain Management Ordinance and methodologies approved by the Ventura County Public Works Agency. In addition, the following information must be shown for projects located within a FEMA-designated floodplain:	

²⁸ For information on oil and gas Conditional Use Permits that have been issued on the project site, contact the Discretionary Permit Coordinator or the Planning Division Information Counter.

²⁹ The design and construction of public roads, as well as all roadway dedications, must be made in accordance with the applicable Ventura County Road Standard Plate and Road Index available at the Transportation Department's website or at the Public Counter.

Tentative Subdivision Map Requirement/Informational Item	Required
(1) Delineation of FEMA floodplain boundaries, and Regulatory Floodway boundaries as determined on the "Effective" Flood Insurance Rate Map (FIRM), and most recently released Preliminary FIRM.	
(2) Label the appropriate FEMA flood zone(s) on the subject property.	
(3) Identify the base flood (100-year) elevation using the NGVD 1929 datum and the NAVD 1988 datum.	
(4) Identify cross-sections as provided on the FEMA FIRM (Effective and Preliminary FIRMs).	
p. The location of each test boring upon which the preliminary soils report described in the <i>Ventura County Subdivision Ordinance</i> [2005, §8203-3(n)] is based.	<input checked="" type="checkbox"/>
q. The approximate location of easements to be abandoned pursuant to Sections 66434(g), 66445(j), 66499.20¼, and 66499.20½ of the Subdivision Map Act.	

II.F. Sketch Map and Sketch Map Overlay Requirements for Parcel Map Waivers (Environmental or Mobilehome Park Conversion Subdivisions)

Applicability

The following checklist outlines the requirements for sketch maps and sketch map overlays for Parcel Map Waivers (e.g., Environmental and Mobilehome Park Conversion Subdivisions). If your project does not involve a Parcel Map Waiver, you do not need to submit a sketch map and sketch map overlay; proceed to Section III, "Discretionary Entitlement/Zone Change/Subdivision Application Questionnaire."

Sketch Map and Sketch Map Overlay Requirements Sketch maps and sketch map overlays must comply with the following requirements:

Sketch Map and Sketch Map Overlay Requirement/Informational Item	Required
Sketch Map Requirements	
1. <i>Submit a digital copy of the sketch map.</i>	<input checked="" type="checkbox"/>
2. <i>Maps must: (a) be prepared by a Land Surveyor or Registered Civil Engineer who is authorized to practice land surveying; and, (b) must meet the following requirements:</i>	
a. Maps must be letter size (8.5 x 11 inches).	<input checked="" type="checkbox"/>
b. Maps must have a minimum lettering size of 6 point font.	<input checked="" type="checkbox"/>
c. Lettering must be open style.	<input checked="" type="checkbox"/>
d. Maps must have a 0.5 inch border line.	<input checked="" type="checkbox"/>
e. Drawn to scale.	<input checked="" type="checkbox"/>
3. <i>Existing and proposed lots must be shown as follows:</i>	
a. Existing lot lines being adjusted must be shown:	
(1) Using dashed lines.	<input checked="" type="checkbox"/>
(2) Labeled to indicate whether or not they are going to be either adjusted, moved or eliminated (e.g., "existing lot line," "lot line to be deleted," "Merger," or "moved - LLA").	<input checked="" type="checkbox"/>
b. Proposed new lot lines and those not being altered must be:	
(1) Shown using solid lines.	<input checked="" type="checkbox"/>
c. The adjusted line shall be labeled (e.g., "proposed lot line").	
d. Show the locations of proposed building sites and access for proposed vacant parcels.	

Sketch Map and Sketch Map Overlay Requirement/Informational Item	Required
4. <i>Identify and label (e.g., "existing" with the deed reference, or "proposed") existing and proposed easements.</i> ³⁰	
5. <i>Label the bearings and distances for all lot lines.</i>	<input checked="" type="checkbox"/>
6. <i>Show adjacent street widths and names.</i>	
7. <i>The size of the proposed lots must be shown as follows:</i>	
a. <i>For lots 10 acres in size or less, show the net and gross acreage. For lots less than 1 acre in size, indicate the lot size in square feet.</i>	<input checked="" type="checkbox"/>
b. <i>For all lots, show the net acreage.</i>	<input checked="" type="checkbox"/>
8. <i>Provide a north arrow.</i>	<input checked="" type="checkbox"/>
9. <i>Provide a bar, engineer's scale.</i>	<input checked="" type="checkbox"/>
10. <i>List the following information about the Land Surveyor or Registered Civil Engineer who is authorized to practice land surveying and who prepared the map:</i>	
a. <i>Signature.</i>	<input checked="" type="checkbox"/>
b. <i>Seal.</i>	<input checked="" type="checkbox"/>
c. <i>License expiration date.</i>	<input checked="" type="checkbox"/>
11. <i>Provide a title block that includes:</i>	
a. <i>The type of proposed project (e.g., "Parcel Map Waiver No. ___") and action (e.g., "Lot Line Adjustment") in parentheses.</i>	<input checked="" type="checkbox"/>
b. <i>The following information about the engineer or surveyor who prepared the map:</i>	
(1) <i>Name.</i>	<input checked="" type="checkbox"/>
(2) <i>Address.</i>	<input checked="" type="checkbox"/>
12. <i>Provide the project site address., if applicable</i>	
Sketch Map Overlay Requirements	
13. <i>Sketch map overlays must be prepared on a transparent or semitransparent sheet that is the same size as the sketch map, and must include the following:</i>	
a. <i>The outer boundary of the entire subject property (omitting interior lines that are to be changed).</i>	<input checked="" type="checkbox"/>
b. <i>Existing structures.</i>	
c. <i>On-site sewage disposal systems.</i>	
d. <i>Water wells.</i>	
14. <i>Sketch map overlays must be drawn to the same scale as the sketch map.</i>	<input checked="" type="checkbox"/>

II.G. All Plans/ Maps

Reductions	Required
Reduction Requirement	
1. <i>Submit a reduced set of all plans and maps in an 8.5 x 11 inch format.</i>	<input checked="" type="checkbox"/>

³⁰ Recording a "proposed" easement on a lot line adjustment, lot elimination subdivision, or voluntary merger does not create that easement. An easement deed must be recorded.

Section III – Entitlement/Zone Change/Subdivision Application Questionnaire

County of Ventura • Resource Management Agency • Planning Division
800 South Victoria Avenue, Ventura, CA 93009 • 805 654-2478 • <https://vcrma.org/divisions/planning>

III.A. Requested Entitlement, Zone Change, and/or Subdivision Please check all entitlements, subdivisions, and/or zone change of which you are requesting approval.

New	Major Modification	Minor Modification	New
		Tract Map (PL)	Zone Change (PL) Variance
		Parcel Map (PL) Parcel Map	(PL) Administrative Variance
		Waiver (PL) Conditional Use	(PL) Other
		Permit (PL) Planned	
		Development Permit (PL)	

III.B. Project Description Summary Please provide a brief summary of the proposed project.

III.C. Assessor Parcel Numbers (“APNs”) and Project Site Location

C.1. Please list all of the APNs that constitute the project site:

(Attach additional sheets if necessary.)

C.2. Street Address (if any):

STAFF USE ONLY

CASE FILE NUMBER: _____	Date Received: _____
Land Use Designation(s): _____	Zoning Designation(s): _____
Receipt Number: _____	Deposit Fee Paid: _____
Previous Permit Numbers: _____	Violation Numbers: _____
Pre-Submittal Planner: _____	Date of Application Submittal: _____
Pre-Submittal Letter Date: _____	Legal Lot Reference: _____
Proposed Use as Listed in the Use Matrix: _____	

C.3. Community (e.g., El Rio, Piru, or Lake Sherwood):

III.D. Primary Contact Information

Please designate and provide the following information about the person who will serve as the primary point of contact on this project. All project-related correspondence will be directed to this person.

Name: Phone Number:

Mailing Address:

Email Address: Fax Number:

III.E. Applicant, Property Owner, and Consultant Information

Please provide the following information about the applicant, property owner, and all consultants (e.g., architects, civil engineers, surveyors, and permit expeditors) who prepared the application materials (e.g., plans, reports, and studies). For the person designated as the primary contact (Item D, above), please state: "Same as Primary Contact." If the item does not apply to your project, please check the "N/A" box and proceed to the following item.

E.1. Applicant The applicant is: (Please check the appropriate box.)

Owner Lessee Has Power of Attorney Authorized by Owner

If the applicant is not the property owner(s), **please submit a lease agreement, power of attorney document, or owner authorization document** with your application.

Name: Phone Number:

Mailing Address:

Email Address: Fax Number:

I hereby submit an application for the land use entitlement(s) and/or zone change identified in this application questionnaire, and certify that the information and exhibits submitted herewith are true and correct to the best of my knowledge.

I certify that I have read and understand all of the instructions and submittal requirements for my application package and have made a good faith effort to comply with these instructions and to provide all of the materials and information that are required for a complete application.

I hereby acknowledge that I have been informed of my right to make a written request to the County to receive notice of any proposal by the County to adopt or amend a general or specific plan, or a zoning ordinance or other ordinance affecting building or grading permits, prior to action on said item.

I certify that I am aware that the information provided in my application package may be subject to public inspection that occurs as a result of any request made in accordance with the requirements of the California Government Code [§6253(a) et seq].

Applicant's Signature

Date

E.2. Property Owner

If the property owner is the same as the applicant (Item E.1, above), write "same." If there is more than one property owner, **please submit a consent letter for each additional property owner.** If the property owner refuses or is unable to sign, **please provide a copy of the lease, title report, or other documentation.**

LEVINE ACT CAMPAIGN CONTRIBUTION DISCLOSURE FORM

You must submit this completed Disclosure Form to the County of Ventura (County) if you or your company are seeking approval of a discretionary land use permit, subdivision map or approval, or other discretionary land use entitlement (collectively, Entitlement).

Land use-related Entitlement applications are potentially reviewed and decided by the Board of Supervisors, Planning Commission, and Cultural Heritage Board. In making the disclosures below, please see the following websites for a list of these current County officials:

- Board of Supervisors (<https://www.ventura.org/board-of-supervisors>)
- Planning Commission (<https://vcrma.org/divisions/planning/planning-commissioners>)
- Cultural Heritage Board (<https://vcrma.org/divisions/planning/cultural-heritage-board-members>)

Check this box if you previously completed this form and this is a supplemental disclosure.

Have you or your company, or an agent on behalf of you or your company, made campaign contributions totaling more than \$500 to a County official in the past 12 months?

YES NO

If **YES**, please provide the following information (*attach separate pages as needed*):

- Name of each official to whom a contribution was made: _____
- Name of contributor(s): _____
- Date(s) of contribution(s): _____
- Amount(s) of contribution(s): _____

If the applicant is a corporation, limited liability corporation, partnership, or other form of business entity, please identify any shareholder or owner that has more than a 50% ownership interest:

While your application is pending, you must submit a supplemental form for any new campaign contributions totaling more than \$500 that are made to a County official.

III.F. Project Description

To ensure County staff understands your project and to avoid delays in processing your application, it is very important to provide as much information as possible on all aspects of the proposed project. In order to present a detailed project description, please answer all of the following questions and provide the requested materials (as applicable) to supplement the project information that must be shown on the project plans and/or map.¹

F.1. Entitlements, Zone Change, and/or Approvals

- a. Existing Permits: List all federal, state, or Ventura County permits which currently are in effect for the buildings, structures, and uses that currently exist on the project site. If Zoning and Building Permits are unavailable for a building or structure, please contact the Tax Assessor’s Office to determine when the building or structure was constructed and provide the date. If there are no permits currently in effect on the project site, please check the “N/A” box and proceed to Item F.1.b. **N/A**

Agency	Permit Case Number	Description of Permitted Use/Development	Permit Issuance Date	Permit Expiration Date

- b. Requested Permits, Actions, and Approvals: Please identify all of the Planning Division, other County Agencies, responsible agencies, and trustee agencies permits, actions, and approvals that you are requesting in order to implement the proposed project.² If the project involves a modification to any previously approved permit (e.g., local, state, or federal permit), please describe the previously approved permit (e.g., type of permit and permit number).

c. Zoning Violations:

(1) Is the project site currently subject to any federal, state, or Ventura County violations? **Yes** **No**
 If so, please provide the following information:

¹ See the “Requirements for Discretionary Entitlement Application Plans, Subdivision Parcel and Tract Maps, and Parcel Map Waiver (Environmental and Mobilehome Park Conversion Subdivisions) Sketch Maps” checklist for the information that must be shown on project plans and/or the map. Please note that a detailed, narrative project description may be submitted with—but not in lieu of—a completed application questionnaire.

² For a definition of “responsible” and “trustee” agencies, please see the *State CEQA Guidelines* [California Code of Regulations, Title 14, Chapter 3, §15381 and §15386].

Agency	Violation Case Number	Description of the Violation

(2) If the project is being proposed in order to abate a violation, please describe how the proposed project would abate the violation. For projects that do not involve a violation, please check the “N/A” box and proceed to Item F.1.d. **N/A**

d. Zone Changes: For projects involving a Zone Change, please provide the proposed changes in land use and/or zoning designations of the project site. For projects that do not involve a Zone Change, please check the “N/A” box and proceed to Item F.1.e. **N/A**

Assessor’s Parcel Number	Existing Zoning Designation	Proposed Zoning Designation

e. Variations: If the project includes a request for approval of a variance, please provide the following information. For projects that do not involve a variance, please check the “N/A” box and proceed to Item F.2. **N/A**

The sole purpose of any variance is to relieve a property owner from an inability to make reasonable use of his or her property in the manner, and for the purpose, which other property of like character, and in the same vicinity and zone, can be used. A variance will not be granted which confers a special privilege inconsistent with the limitations upon other properties in the same vicinity and zone in which the property is situated. All four of the following standards for a variance must be met; please describe how each one pertains to your property (use additional sheets as necessary).

- (1) There are special circumstances or exceptional characteristics applicable to the property with regard to size, shape, topography, location, or surroundings which do not apply generally to comparable properties in the same vicinity and zone classification. You must demonstrate that extraordinary circumstances exist on the property itself, such as:
 - Uniqueness in size, shape, etc.

- That topography is the cause of a particular hardship.
- That the location is of a special nature.
- That there is a hardship unique to the property itself, and not a personal problem of the applicant.

- (2) Granting the requested variance will not confer a special privilege inconsistent with the limitations upon other properties in the same vicinity and zone.
- Show that there are related uses on other properties in the same zone.
 - Please be aware that similar variances granted for property elsewhere in the County are not grounds for granting a variance.

- (3) Strict application of the zoning regulations as they apply to the subject property will result in practical difficulties or unnecessary hardships inconsistent with the general purpose of such regulations.

- (4) Granting of the requested variance will not be detrimental to the public health, safety, or general welfare, nor to the use, enjoyment, or valuation of neighboring properties. Provide evidence that granting your request will not impose any hardship or damage on neighboring properties, nor be detrimental to the public welfare.

F.2. Project Phasing/Duration

- a. Development Phasing: Please describe the duration of each phase of the proposed project including, not limited to, vegetation removal, grading, construction, and operational phases of the project.
but
- b. Conditional Use Permit Expiration Date: For projects that involve a Conditional Use Permit (“CUP”), please state the requested expiration date of the CUP (i.e., the termination of the operational phase of the CUP). For projects that do not involve a CUP, please check the “N/A” box and proceed to Item F.2.c. **N/A**
- c. Events: For projects involving events (e.g., weddings, animal shows) please provide the following information. For projects that do not involve events, please check the “N/A” box and proceed to Item F.3. **N/A**

Type of Event:

Days and Hours of Operation:

Total Number of Events/Year:

Are these events related to an existing or proposed commercial or industrial use? _____
If, “Yes,” please describe the existing or proposed commercial or industrial use.

F.3. Self-Imposed Restrictions

- a. Existing Restrictive Covenants: Is the property (or a portion thereof) subject to a Restrictive
Yes **No** If the answer is “Yes,” **please submit a copy of the**
Covenant?
Restrictive Covenant.
- b. Please describe any features that have been incorporated into the project description to avoid any adverse environmental impacts and/or to achieve consistency with a policy or regulation that applies to the project (e.g., self-imposed prohibitions on future ministerial uses of the property). If the project includes a restrictive covenant, please describe the following features of the restrictive covenant:
- The purpose of the restrictive covenant (e.g., avoidance of a significant impact to biological resources or geological hazards);
 - The type of areas that would be subject to the restrictive covenant (e.g., wildlife habitat areas located adjacent to the project site); and,
 - The amount of area that would be subject to the restrictive covenant.

F.4. Dedications/Easements

Please describe in detail the type, size, and purpose of all proposed dedications (e.g., road, utility, or habitat conservation easements). **N/A**

F.5. Water Supply

a. What is the existing source of water at the project site? Please check the item that applies and, if a purveyor provides water, please provide the requested information about the water purveyor:³
water

(1) Water Purveyor

Water Purveyor's Name:

Address:

Phone Number:

(2) Individual Water Well

(3) Shared Water Well

b. What is the size of the water tank/reservoir that serves the project site? gallons

c. Please provide the fire flow that is available to the project site: GPM @ 20 PSI Residual

d. Please identify the Groundwater Basin or State Designated Hydrologic Area in which the project site is located. Please indicate if the project site is located within the boundaries of any water management authority (e.g., the Ojai Basin Groundwater Management Agency, the Fox Canyon Groundwater Management Agency, or the Santa Paula Pumpers Association).

³ In order to identify the water purveyor that serves the project site, please see the Watershed Protection District's "Inventory of Public and Private Water Purveyors in Ventura County" (March 2006) which is available at the Watershed Protection District, Groundwater Section.

e. Please list all known water wells onsite or offsite that would supply the project, including any municipal, industrial or agricultural supply wells.⁴ If the project would not rely on a water well, please check the “N/A” box and proceed to Item F.5.E. **N/A**

f. For projects that are proposed to rely on public water, **please submit a copy of a water availability letter from the water company** indicating that existing/future domestic water service is available for the proposed project. The water availability letter must show that the water purveyor has additional groundwater to serve the total annual water supply that is required for the project. This letter is required when the water supply is to be provided by a city, water district, mutual water company, privately owned water company or with five or more service connections, or similar supplier.⁵ If the project would not rely on public water, please check the “N/A” box and proceed to Item F.5.g. **N/A**

g. For projects that are proposed to rely on an individual or shared water well, please submit the following information. If the project would not rely on an individual or shared water well, please check the “N/A” box and proceed to Item F.5.h. **N/A**

(1) **Please submit a copy of a well water quality report which includes testing results obtained within the last year.**⁶ This report is required when the domestic water supply is to be provided by an individual well or a well shared by four or fewer connections (including the proposed connection for the project).

(2) **Please submit a copy of a water well pump and recovery test (well test) of the proposed water supply.**⁷

h. Please provide a detailed description of the proposed water source for fire protection purposes, by answering the following questions and providing the following information:

(1) Is the source of water for fire protection purposes going to be provided by a private well or purveyor?
Private Well Purveyor

If water is going to be provided by a purveyor, please provide the following information. If water is not going to be provided by a private well, please proceed to Item F.5.h(1)(b).

(a) Purveyor Name:

⁴ For projects that are located within the boundaries of the Fox Canyon Groundwater Management Agency (FCGMA), FCGMA Ordinance No. 8.1, as may be amended, requires that before drilling a new water well, a completed water well permit application must be submitted. The FCGMA “No Fee Water Well Permit Application” form is available on-line at: <http://www.fcgma.org>.

⁵ A water bill may be used in lieu of a letter for existing service for some projects; however, please contact the Environmental Health Division at (805) 654-2830 and the Public Works Agency, Watershed Protection District, Groundwater Section at (805) 650-4083 to determine if a water bill may be used for the proposed project.

⁶ Please see the Environmental Health Division’s “Certification of Water Quality” handout, which is available at the Environmental Health Division’s Public Counter

⁷ Please see the Public Works Agency, Watershed Protection District, Groundwater Section, for the methodology and reporting requirements for a water well pump and recovery test.

Address:

Phone Number:

(b) Size of the water tank/reservoir that serves the water system: _____ gallons

(c) Fire flow that is available at 20 PSI-R from the water system at the nearest fire hydrant to the project site: _____ gpm

F.6. Sewage Disposal

a. What is the existing source of sewage disposal? Please check the item that applies. If a sewer provides sewage disposal services, please provide the requested information about the sewer purveyor. If a purveyor on-site wastewater treatment system provides sewage disposal, please indicate the type of system by checking the appropriate box.

(1) Public Sewer Sewer Purveyor's Name:

Address:

Phone Number:

(2) On-site wastewater treatment system

(a) Septic System

(b) Treatment Plant

(c) Grey Water System

(d) Step (Septic Tank Effluent Pumping) Systems

b. Subdivisions and other discretionary projects having a direct effect upon the volume of sewage are required to demonstrate conformance with the Ventura County Sewer Policy.⁸ This policy does not apply to the construction of one single-family residence or second dwelling unit on a legal lot. If your project only involves the construction of one single-family residence or second dwelling unit on a legal lot, please check the "N/A" box and proceed to Item F.6.c. **N/A**

c. Public sewer: If the property is/will be served by public sewer, **provide three copies of a sewer availability letter** from the sanitation district, city, or other sewer agency, indicating that existing/future sewer service is available for the proposed project. A sewer bill may be used in lieu of a letter for existing service for some projects. If the property is not/will not be served by public sewer, please check the "N/A" box and proceed to Item F.6.d. **N/A**

⁸Please see the Ventura County Sewer Policy (Adopted on June 6, 1995), which is available at the Environmental Health Division Public counter or on-line at https://docs.vcrma.org/images/pdf/eh/land-use/Ventura_County_Sewer_Policy_1996.pdf

d. On-site wastewater treatment system (e.g., “septic system” or “treatment plant”): If the project is/will be served by on-site sewage disposal, **provide the following information:**

(1) **A Septic Tank Pumping Report** for all existing septic systems located on the project site.⁹

(2) **A soils report** for septic system suitability for proposed septic systems.¹⁰

If the property is not/will not be served by on-site sewage disposal, please check the “N/A” box and proceed to Item F.6.e. **N/A**

e. For commercial projects and subdivisions involving three or more lots less than five acres in size, applicants must contact the Los Angeles Regional Water Quality Control Board to obtain the waste discharge requirements that will apply to the project. Please contact the Los Angeles Regional Water Quality Control Board at (213) 576-6600 for more information.

F.7. Groundwater Resources

a. If necessary,¹¹ please **provide a percolation plan and calculations** to demonstrate sufficient measures be incorporated into the project design to assure that the proposed project would not result in a net will reduction in aquifer recharge. Specific measures that may be incorporated into the project include, but are not limited to: reduction of impervious surface areas; construction of detention/percolation ponds; use of porous paving materials; diversion of runoff to sheet flow over landscaped areas; landscape drainage swales; and, soil amendment techniques to enhance percolation. All proposed impervious surfaces (e.g., parking areas, sidewalks, and buildings), must be itemized in the calculations. If a percolation plan and calculations are not required, please check the “N/A” box and proceed to Item F.7.b. **N/A**

b. If necessary,¹¹ please **submit data on the quantity of past groundwater use and proposed groundwater use.** Please be advised that you must show how any potential increase in water demand caused by the proposed project would be mitigated such that there would be no net increase in groundwater usage and no net detriment to the underlying aquifer volume, recharge capability, or quality. Securing another source of water (e.g., reclaimed water or providing “new water” such as imported water, or water from other sources) would be considered an acceptable mitigation measure to offset potential increases in the demand for groundwater. If data on groundwater use is not required, please check the “N/A” box and proceed to Item F.7.c. **N/A**

⁹ Please see the Environmental Health Division’s “Septic Tank Pumping Report” handout, which is available at the Environmental Health Division Public Counter or on-line at <https://vcrma.org/docs/images/pdf/eh/land-use/Septic-Tank-Pumping-Inspection-Report.pdf>

¹⁰ Please see the Environmental Health Division’s “Soils Report Requirements” handout, which is available at the Environmental Health Division Public Counter or on-line at <https://docs.vcrma.org/images/pdf/eh/septic/OWTS-Soils-Report-Requirements-for-Land-Use.pdf>

¹¹ Please contact the Public Works Agency, Watershed Protection District, Groundwater Section at <https://www.vcpbublicworks.org/wp/waterresourcesdivision/groundwaterresources> to determine if a percolation plan and calculations, or data on groundwater use are required

- c. Please contact the Watershed Protection District, Groundwater Section to determine if the project site overlies an overdrafted groundwater basin. If the project site overlies an overdrafted groundwater basin, please list the name of the groundwater basin. If the project site does not overlie an overdrafted groundwater basin, please check the “N/A” box and proceed to Item F.8. **N/A**

Groundwater Basin:

F.8. Surface Water Quality

The following questionnaire will only determine if the proposed project is subject to Ventura Countywide NPDES Municipal Stormwater Permit Order No. R4-2010-0108, Part 4.E “Planning and Land Development Program” requirements to select, design, construct, and maintain Post-construction Stormwater (PCSW) controls. Additional evaluation of the proposed project will be conducted to determine any additional individual and cumulative impacts by the proposed project to surface water quality.

- a. Does this proposed project involve construction of street(s), road(s), highway(s), or freeway adding or creating 10,000 square feet or more of **impervious surface area** (refer to the Definition below)?
Yes, this project shall incorporate USEPA Guidance “Managing Wet Weather with Green Infrastructure: Green Streets” to the maximum extent practicable. For additional information refer to <http://onestoppermit.ventura.org> under Surface Water Quality Section’s “Guidelines/Standards”.
No, proceed to item F.8.b
- b. Is this application for construction of a Single Family Hillside¹² Home?
Yes, this project shall include Post-Construction Requirements for Single-Family Hillside Homes. For additional information refer to <http://onestoppermit.ventura.org> under Surface Water Quality Section’s “Guidelines/Standards”.
No, proceed to item F.8.c
- c. Is the proposed project located within the County Unincorporated Urban areas?
Yes, proceed to item F.8.d
No, this proposed project is not subject to PCSW controls.
- d. Is this application for a New Development project that will result in creation or addition of **impervious surface area** (refer to the Definition below)?
Yes, proceed to item F.8.e
No, proceed to item F.8.f
- e. Please check the appropriate box if the proposed New Development project involves any of the following activities:
Yes, New Development project equal to 1 acre or greater of disturbed area and adding more than 10,000 square feet of **impervious surface area** (refer to the Definition below);
Yes, Industrial park 10,000 square feet or more of surface area;
Yes, Commercial strip mall 10,000 square feet or more of **impervious surface area** (refer to the Definition below);

¹² “Hillside” is defined as average slope of 20% or greater.

- Yes**, Retail gasoline outlet 5,000 square feet or more of surface area;
- Yes**, Restaurant 5,000 square feet or more of surface area;
- Yes**, Parking lot 5,000 square feet or more of **impervious surface area** (refer to the Definition below), or with 25 or more parking spaces;
- Yes**, Automotive service facility 5,000 square feet or more of surface area;
- Yes**, a project located in or directly adjacent to, or discharging directly to an Environmentally Sensitive Area¹³ (ESA), where the development will:
 - A) Discharge storm water runoff that is likely to impact a sensitive biological species or habitat; and
 - B) Create 2,500 square feet or more of **impervious surface area** (refer to the Definition below).
- No**, none of the above; this proposed New Development project is not subject to PCSW Controls.

If you check “**Yes**” in at least one box above (item F.8.e), proceed to item F.8.h for required project submittal information.

- f. Is proposed project a Redevelopment and land-disturbing activity (not an interior remodel, not a roof replacement, or other maintenance-related activities) of an existing single-family dwelling and accessory structures that will result in creation, addition, or replacement of 10,000 square feet of **impervious surface area** (refer to the Definition below)?
 - Yes**, the PCSW controls are required; for project submittal information refer to item F.8.h
 - No**, proceed to item F.8.g
- g. Is proposed Redevelopment and land-disturbing activity (not maintenance) project other than existing single-family dwelling that will result in creation, addition, or replacement of 5,000 square feet of **impervious surface area** (refer to the Definition below) on already developed site¹⁴?
 - Yes**, the PCSW controls are required; for project submittal information refer to item F.8.h
 - No**, this Redevelopment project is not subject to PCSW controls.
- h. If you answered “**YES**” to questions in items F.8.f and F.8.g, the proposed project is subject to design, construction, and maintenance of the PCSW controls in accordance with the Ventura Countywide Technical Guidance Manual (TGM) for Stormwater Quality Control Measures (available at <http://www.vcstormwater.org/index.php/publications/manuals/tech-guide-manual>). The following items shall be included in your application package:
 - I. Identify proposed PCSW controls on your site/grading plan,
 - II. Provide the necessary analysis in your Drainage Study to demonstrate that the PCSW controls will function as proposed including any applicable stormwater quality design flow or volume calculations for proposed treatment device(s) using applicable “Design Procedure Form” (Appendix G of the Technical Guidance Manual), and
 - III. Submit a Post-Construction Stormwater Management Plan (PCSWMP)¹⁵.

¹³ For complete ESA information, call County Stormwater Program staff at (805) 662-6737.

¹⁴ To determine if the proposed project meets the definition of a "Redevelopment" project, the already developed site shall meet at least one of the criteria listed in items F.8.a or F.8.e. For additional information, call County Stormwater Program staff at (805) 662-6737.

¹⁵ County of Ventura PCSWMP form is available at <http://onestoppermit.ventura.org> under County Stormwater Program Section “Forms” tab. For additional information, call County Stormwater Program staff at (805) 662-6737.

DEFINITION:

Impervious Surface Area - A hard surface area which either prevents or retards the entry of water into the predevelopment soil mantle. Common impervious surfaces include, but are not limited to, roof tops, walkways, patios, driveways, parking lots or storage areas, impermeable concrete or asphalt paving, gravel roads, packed earthen materials, and oiled macadam or other surfaces which similarly impede the natural infiltration of stormwater. For complete definition refer to the 2011 Ventura Countywide Technical Guidance Manual for Stormwater Quality Control Measures available at <http://www.vcstormwater.org/index.php/publications/manuals/tech-guide-manual>.

For more information refer to <http://onestoppermit.ventura.org> under County Stormwater Program or call (805) 662-6737.

The copy of the Ventura Countywide Technical Guidance Manual (TGM) for Stormwater Quality Control Measures is available at <http://www.vcstormwater.org/index.php/publications/manuals/tech-guide-manual> .

F.9. Floodplain Management¹⁶

- a. If the project, including any site grading, is proposed to be located within a 100-year floodplain but floodplain boundaries and 100-year base flood elevation on the property have not been determined by the FEMA on the Flood Insurance Rate Map (i.e., referred to as an Unnumbered/Approximate 'A' flood zone), a California-licensed Civil Engineer will need to submit hydrologic and hydraulic analyses that determine the boundaries, base flood elevation, and velocity of the 100-year floodplain and, if applicable, the Regulatory Floodway. A California-licensed Land Surveyor can provide current topography of the property as part of the submitted engineering analyses. If the project is not located within an Unnumbered/Approximate 'A' flood zone, please check the "N/A" box and proceed to Item F.9.b. **N/A**
- b. If the project, including site grading, is proposed to be located in close proximity to a boundary of a Regulatory Floodway or a boundary of a 100-year floodplain, as delineated on the current ('Effective') or latest FEMA-issued ('Preliminary') Flood Insurance Rate Map, a California-licensed Civil Engineer, Architect, or Land Surveyor will need to submit a scaled site plan, using current topography, verifying the location of the proposed project in relation to the floodway/floodplain boundary. Please proceed to F.9.c; however, if the project is not located within a floodway/floodplain, please check the "N/A" box and proceed to Item F.9.d. **N/A**
- c. If the project is proposed to be located within a 100-year floodplain, please list all proposed structures (habitable and non-habitable, site grading, and any new or replacement utilities and services (electrical, mechanical, heating, ventilation, plumbing). Please proceed to F.9.d.
- d. If the project is proposed to be located within the Silver Strand or Hollywood Beach coastal communities, specifically, please provide the following elevation information.¹⁷ If the project is not located within these communities, please check the "N/A" box. **N/A**

¹⁶ County of Ventura Floodplain Management Ordinance, Title 44 Code of Federal Regulations Sections 59, 60, 65, and 70.

¹⁷ Please visit the Public Works Agency Public Counter to obtain an instruction handout.

(1) Elevation (Mean Sea Level) of the localized flooding spillpoint for the subject property: _____ msl.

(2) Elevation (Mean Sea Level) of the crown of fronting street (measurement taken at mid-point of the property frontage): _____ msl.

F.10. Geology, Site Grading, and Drainage

a. If the project involves site grading activities, please provide the following information. For projects that not involve grading activities, please check the “N/A” box and proceed to Item F.10.b. Please be do advised that **all projects involving new construction require the submission of a soils report. N/A**

(1) Please provide the following statistics on the proposed site grading activities:

(a) Area to be graded: _____ sq. ft. _____ acres

(b) Slope ratio of steepest finished slope (horizontal feet/each vertical foot):

(c) Height of highest finished slope (from top to bottom): _____ ft.

(d) Please state whether or not the graded soil is proposed to be balanced on-site during construction, or proposed to be reused during the landscaping phase of the project.

(e) If the proposed project would result in the export of materials, please provide the following information. If the project does not involve the export of materials, please check the “N/A” box and proceed to Item F.10.a(1)(f). **N/A**

(i) Types of materials to be exported:

(ii) Location to which excess materials would be transported: .

(iii) Proposed truck route to the location where the materials would be transported:

(f) If the proposed project would requires the import of materials, please provide the following information. If the project does not involve the import of materials, please check the “N/A” box and proceed to Item F.10.a(1)(g). **N/A**

(i) Types of materials to be imported:

(ii) Location from which the materials would be imported:

(iii) Proposed truck route from the materials site to the proposed project site:

- (g) For all projects involving new construction or grading activities, **please submit a copy of a soils report**. If the project does not involve new construction or grading activities, please check the “N/A” box and proceed to Item F.10.a(1)(h). **N/A**
- (h) For all projects involving new construction or grading and that are located within a hillside or Geologic Hazard Area, **please submit a copy of a geology report**. If the project does not involve new construction or grading in any of these areas, please check the “N/A” box and proceed to Item F.10.a(1)(i). **N/A**
- (i) Please describe any features that have been included in the project description to control the creation of dust.

- b. **Please submit a copy of a drainage study**, if the project would result in: a change in the amount of impervious area within the project site; any change on local drainage patterns; a subdivision; and/or any additional storm water runoff onto adjacent property or public roads. If the project does not require a drainage study, please check the “N/A” box and proceed to Item F.11. **N/A**

The drainage study must conform to the following requirements and must include (but is not limited to) the following information:

- (1) The drainage study must be prepared, signed, and stamped by a California Registered Civil Engineer.
- (2) The drainage study must conform to the Ventura County Road Standards, as well as the Watershed Protection District’s standard, which is that there must not be an increase in peak runoff rate in any storm frequency.¹⁸

¹⁸ For a checklist of the requirements for drainage studies, please see the Public Works Agency, Watershed Protection District’s “Requirements for CEQA Hydrology Submittals,” which is available at vcwatershed.org (select Hydrology/Technology), and the Ventura County Road Standards, which are available at the Roads and Transportation Department Public Counter.

(3) The drainage study must:

- (a) Calculate and address the potential increase in the peak runoff rate that would be generated by the proposed project;
- (b) Describe all proposed and existing drainage facilities; (c) Identify if the project would generate additional storm water run-off onto adjacent private property or any public road right-of-way;
- (d) Identify if the drainage from the project site would be directed or tie into the existing storm drain facilities/ditches;
- (e) Identify if the project would result in any change on local drainage patterns; and,
- (f) Identify if the capacity of the existing local drainage facility is adequate to accept the peak runoff created by the project.

(4) The drainage study must include all hydrology and hydraulic calculations used in preparing the drainage plan. The hydrology and hydraulic calculations must be prepared according to the Ventura County Flood Control District Hydrology Manual and the Ventura County Public Works Agency, Roads and Transportation Department's, Road Standards.¹⁹

F.11. Trip Generation

a. Traffic Studies: **A traffic study is required** for projects that have the potential to create impacts

- to:
- The State Route (SR) 118/SR 34 intersection, SR 34, SR 118 in the Somis Area, Santa Rosa Road, Moorpark Road, and SR 33 in the Casitas Springs Area; and/or,
 - County thoroughfares, state highways, and intersections that are operating below level of service D.

A traffic study may also be required for:

- Any project that is estimated to generate 10 or more peak-hour trips. Examples of projects that would generate 10 or more peak-hour trips include:
 - Residential development of 10 units or more;
 - Commercial office projects of 4,400 square feet or more;
 - Other commercial projects or medical office projects of 2,400 square feet or more;
 - Any fast food restaurant project; and,
 - Manufacturing or industrial projects of 6,000 square feet or more.
- With unclear project descriptions, and on land uses that are not represented in the ITE Trip Generation Manual or the SANDAG Brief Guide of Vehicular Traffic Generation Rates.

¹⁹ Please check the Public Works Agency, Roads and Transportation Department requirements for drainage study submittals. A checklist of requirements may be obtained from the Public Works Agency, Roads and Transportation Department Public Counter.

- For temporary construction projects with construction periods exceeding six months generating more than 10 peak hour trips or 100 daily trips.²⁰

If a traffic study is required for the proposed project, please complete a “Work Scope for Traffic Impact Analysis” form and submit it to the Transportation Department for review and approval—prior to preparing the Traffic Study. Please contact the Discretionary Permit Coordinator for the “Work Scope for Traffic Impact Analysis” form.

b. Was a traffic study prepared for the proposed project? Yes No

If so, **please submit a copy of the traffic study.** If not, please summarize the trip generation estimates for the proposed project by completing the following table by using the trip generation information provided by the Discretionary Permit Coordinator:

Trip Generation Estimates

Land Use	Trip Generation Code ²¹	Size/Number of Units	Average Daily Trips (ADT)		Peak Hour Trips			
			Rate	Trips	A.M.		P.M.	
					Rate	Trips	Rate	Trips
Existing Trip Generation Estimates								
TOTAL			---		---		---	
Proposed Project Trip Generation Estimates								
TOTAL			---		---		---	

c. If the proposed project involves the legalization of a lot or a currently unpermitted land use, please answer the following question. If not, please check the “N/A” box and proceed to Item F.11.d. **N/A**

Does the proposed project involve the renewal of an entitlement for, and an expansion of, a land use that existed prior to 1985? Yes No If the answer is “yes,” **please provide documentation that indicates the land use existed prior to 1985.**

d. For agricultural, commercial, institutional, and industrial projects, please state the number, type (e.g.,

²⁰ For more information, please see the Public Works Agency Roads and Transportation Department’s Traffic Impact Study and SR 118 and SR 34 Procedures for Initial Screening brochures, which are located at the Public Works Agency, Engineering Services Department, Development and Inspection Services Division’s Public Counter. Also, please be advised that if a project has the potential to generate traffic that would affect a city’s roadway network, a traffic study will need to address the city’s requirements for traffic studies.

²¹ Trip generation estimates should be based on the SANDAG Vehicular Traffic Generation Rates which can be found on line at: http://www.sandag.org/uploads/publicationid/publicationid_1140_5044.pdf. To convert Truck trips to Passenger Car Equivalent (PCE), it should be multiplied by three.

deliveries), and frequency of vehicle trips that will result from the proposed project. For all other projects, please check the “N/A” box and proceed to Item F.11.e. **N/A**

Vehicle Type	Number	Frequency (per day)
TOTAL		---

e. **Traffic Control Plan:** For projects that involve special events (e.g., weddings, festivals, animal shows, and pumpkin patches), or any detour, road closures, or partial road closures on County Roads, **please submit a Traffic Control Plan** written by a traffic control professional, which includes the following information.

- (1) The use of trained and qualified traffic control officers (off-duty safety officers);
- (2) Advance warning and changeable message boards; and,
- (3) Any other measures as appropriate.

If the project does not require a Traffic Control Plan, please check the “N/A” box and proceed to Item F.12. **N/A**

F.12. Hazardous Materials/Waste and Fire Protection

a. With the exception of applications that only involve Zone Changes (i.e., applications that do not include accompanying discretionary entitlement or subdivision application), **please submit a completed** an **“Certification Statement of Hazardous Waste/Substance Site”** which is included with this application packet. If the application only involves a Zone Change, please check the “N/A” box and proceed to Item F.12.b. **N/A**

b. For non-residential projects, please describe the type and quantity of hazardous materials (e.g., motor oil, oil filters, paints, solvents, fertilizers, or chemicals) and wastes utilized and/or stored on-site, by providing the following information. For residential projects, please check the “N/A” box and proceed to Item F.12.c. **N/A**

Hazardous Material or Waste	DOT Hazard Classification	IBC/IFC Hazard Class	Largest Container/ Tank (ft ³ , lbs., or gal.)	Total Amount (ft ³ , lbs., or gal.)

c. Please describe any underground hazardous materials storage tank(s) that are proposed to be installed, removed, and/or used. If the project is located on an active Leaking Underground Fuel Tank (LUFT) site, please describe the status of the case. If the project site does not have an underground hazardous materials storage tank or involves a LUFT site, please check the “N/A” box and proceed to Item F.13. **N/A**

F.13. Noise

- a. Existing Noise Environment: Please describe the sources of noise surrounding the project site by completing the following table. A noise study may be submitted in lieu of providing the information requested below.²²

Noise Source (e.g., Railway or Roadway)	Approximate Distance Between the Source of the Noise and the Project Site (feet)

- b. Please describe the noise that would be generated by the proposed project, as well as noise to which proposed uses would be subject, by providing the following information.²³

(1) Noise Sensitive Uses:

- (a) Does the project involve the use of dwellings, schools, hospitals, nursing homes, churches, or libraries? **Yes No**
 If the answer is yes, please proceed to Item F.13.b(1)(b). If the answer is no, please proceed to Item F.13.b(2).

(b) Is the project site located:

- (1) Within a noise contour that identifies areas with ambient noise levels that are 60 db(A) CNEL or greater, surrounding a roadway or airport?²⁴ **Yes No** If the answer is yes, **please submit a noise study** that complies with the requirements of the *Ventura County Initial Study Assessment Guidelines*.

- (2) Within 500 feet of a railroad, industrially designated area, or other relatively continuous noise source?²⁵ **Yes No**

²² See Footnote 16 (above).

²³ For the definitions, measurement, and thresholds/standards relating to noise, please see the: Ventura County General Plan Goals, Policies and Programs (2020, Hazards and Safety Element, Section 7.9), which is available on-line at https://docs.vcrma.org/images/pdf/planning/plans/Final_2040_General_Plan_docs

VCGPU_07_Hazards_and_Safety_Element_2020_09_15_web.pdf;

Ventura County General Plan Background Report (Section 11.6), which is available on-line at https://docs.vcrma.org/images/pdf/planning/plans/VCGPU_11_Adopted_Hazards_Safety_September_2020.pdf; and/or the Ventura County Initial Study Assessment Guidelines (April 2011, Section 19), which is available on-line at <https://vcrma.org/en/ceqa-implementation-and-initial-study-assessment-guidelines>

²⁴ See the Ventura County General Plan Background Report (Section 11.6), or consult the Planning Division Public Counter staff for maps that identify the locations of the noise contour lines that indicate areas around roadways and airports within Ventura County, which experience noise levels that are at least 60 dB(A) CNEL.

²⁵ See the Ventura County General Plan Land Use, Existing Community Designated Areas, and Area Plan Maps (as appropriate) to determine the project site's proximity to industrially-designated areas. Links to the Ventura County General Plan Land Use, Existing Community, and Area Plan Maps are available on-line at https://docs.vcrma.org/images/pdf/planning/plans/Final_2040_General_Plan_docs/VCGPU_02_Land_Use_Element_2020

If the answer is yes, **please submit a noise study** that complies with the requirements of the *Ventura County Initial Study Assessment Guidelines*.

(2) Noise-Generating Activities:

Noise-Sensitive Use	Typical Noise-Sensitive Time Period	Does the project involve the use of noise-generating equipment, vehicles, or machinery within 500' of the noise sensitive use during the typical noise-sensitive time period(s)?*
Hospital or Nursing Home	24 hours	<input type="checkbox"/> Yes <input type="checkbox"/> No
Single-Family or Multi-Family Dwelling	7:00 PM to 7:00 AM, Monday through Friday; and, 7:00 PM to 9:00 AM, Saturday, Sunday, and Local Holidays	<input type="checkbox"/> Yes <input type="checkbox"/> No
School, Church, or Library	Anytime when in operation.	<input type="checkbox"/> Yes <input type="checkbox"/> No

* When answering this question, please consider all phases of the project (e.g., vegetation removal, grading, construction, and long-term operational phases of the project).

If the answer is yes to any of the items above, please submit a noise study that complies with the requirements of the *Ventura County Initial Study Assessment Guidelines (ISAGs)* and/or *County of Ventura Construction Noise Threshold Criteria and Control Measures* (as applicable).

Alternatively, you may forego the preparation of a noise study, if you are willing to accept a condition on the entitlement that will prohibit the noise-generating activities during the typical noise-sensitive time period(s) for the noise-sensitive use(s). If you would like to forego the preparation of a noise study by accepting the condition that will limit the time periods when the noise-generating activities may occur, please check the following .

F.14. Lighting

For projects located within the Ojai Valley Dark Sky (DKS) Overlay Zone (i.e., within the Ojai Valley Municipal Advisory Council (MAC) Boundary), Scenic Resource Protection (SRP) Overlay Zone, projects near wildlife habitat, or projects that have significant visual or community character impacts, please provide the following information. For all other projects, please check the “N/A” box and proceed to Item F.15. **N/A**

- a. Existing outdoor lighting on site: Please graphically depict on the site plan and elevations, include a list of all existing outdoor light fixtures located on the project site. A lighting plan indicating all outdoor lights may be submitted in lieu of this list.

- b. Proposed outdoor lighting on site: Please list and describe the outdoor lighting that would be generated by the proposed project.²⁶ A lighting plan indicating all outdoor lights may be submitted in lieu of this list.

²⁶ For the definitions and standards relating to outdoor lighting in the Dark Sky Overlay Zone, please see the: *Ventura County Non-Coastal Zoning Ordinance* (§8109-4.7.4), which is available online at <https://vcrma.org/divisions/planning/county-ordinances/>

Please note that if the parcels lie within the DKS Overlay Zone, all proposed outdoor lighting shall comply with standards identified in Sec. 8109-4.7 of the *Non-Coastal Zoning Ordinance*. These include compliance of each outdoor light fixture with shielding, lighting intensity (lumens), color temperature, light trespass levels, height of fixtures, security lighting, etc.

Please note that depending on nature of the project, you may be required to prepare a lighting plan as a condition of approval for the entitlement to ensure that the proposed outdoor lighting will minimize glare, minimize energy consumption, avoid interference with reasonable use of adjoining properties, light pollution, and other objectives as identified in the appropriate section of the *Non-Coastal Zoning Ordinance*.

F.15. Utilities

a. Utilities: Please identify all of the utilities that would provide service to the project site, by completing the following:

Utility	Name	Address	Phone Number	Email Address
Gas				
Electricity				
Phone				
Cable				

b. Electricity:

(1) What is the projected amount of electrical usage (peak KW/Hours/Day)?

(2) Do existing lines have to be increased in number or size? **Yes** **No**
 If yes, please describe:

(3) Do overhead electrical facilities require relocation or under grounding? **Yes** **No**
 If yes, please describe:

(4) Please indicate the length of new offsite electrical transmission and distribution facilities that are required to serve project. If the project does not involve the installation of new offsite electrical transmission and distribution facilities, please check the "N/A" check box. **N/A**

- d. Is the property subject to an LCA Contract? **Yes** **No**

If the answer is “No,” please proceed to Item F.16 e. If the answer is “Yes,” please provide the LCA Contract Number:

- e. Animal Keeping and Husbandry/Vector Control: For projects that involve animal keeping or boarding activities, please provide the following information. For projects that do not involve animal keeping or boarding activities, please check the “N/A” box and proceed to Item F.17. **N/A**

(1) The number and species of animals that are proposed to be kept or boarded on-site.

(2) The proposed animal waste handling activities (e.g., the frequency of collection, storage and disposal).

(3) For projects involving animal husbandry uses and which require a Tract Map or Conditional Use Permit (“CUP”), **please submit a Manure Management Plan.**²⁸ For all other projects, please check the “N/A” box and proceed to Item F.17. **N/A**

F.17. Solid Waste, Recycling, Greenwaste, and Composting Operations

For projects involving solid waste, recycling, greenwaste processing, or composting operations, please complete F.17.a through F.17.c.²⁹ For projects not involving these types of facilities or uses, please check the “N/A” box and proceed to Item F.18. **N/A**

- a. Composting Operations: If the project involves composting operations, **please complete the Environmental Health Division’s “Supplemental Questionnaire for Proposed Compost Projects,”** which is available at

28 For the requirements of a Manure Management Plan, please see the Public Works Agency, Watershed Protection District’s “Guidelines for Preparing a Manure Management Plan (MMP)” which is available at the Public Works Agency, Watershed Protection District, Groundwater Section.

29 County Ordinance No. 4308 requires facilities engaging in commercial composting, or facilities that chip, grind, and process green material and sell products derived from these operations, to enter into a contract with the County. (To review Ordinance No. 4308, go to www.wasteless.org. Select “Landfills, Disposal, Refuse Collection”/Ordinances.)

APCD Permit to Construct.³¹ If the project does not require either of these APCD Permits, please check the “N/A” box and proceed to Item F.19. **N/A**

F.19. Commercial, Agricultural, Institutional, and Industrial Projects Operational Characteristics

For commercial, agricultural, institutional, or industrial projects, please answer the following questions. For all other projects, please check the “N/A” box and proceed to Item F.20. **N/A**

a. Materials: For commercial, agricultural, and industrial projects, please describe in detail the type of materials used, stored, sold and/or processed, and the processes that are proposed. If the project only involves an institutional use, please check the “N/A” box and proceed to Item F.19.b. **N/A**

b. Existing Operations: For project sites that are currently developed with commercial, agricultural, institutional, and/or industrial uses, please provide the following information. For all other projects, please check the “N/A” box and proceed to Item F.19.c. **N/A**

(1) How many employees work on the property? Please indicate the days and hours that they work, as well as the number of employees/shift.

(2) For multi-tenant buildings and structures, please provide the number of tenants that exist on the subject property. For project sites that do not have multi-tenant buildings and structures, please check the “N/A” box and proceed to Item F.19.c. **N/A**

Tenants

(3) Please provide the days and hours of operation of each business located on the property.

c. Proposed Operations: For commercial, agricultural, institutional, or industrial projects, please provide the following information. For all other projects, please check the “N/A” box and proceed to Item F.20. **N/A**

³¹ Please see APCD Rule 10, Permits Required, which is available on-line at:

<http://www.vcapcd.org/Rulebook/Reg2/RULE%2010.pdf>.

(1) Please list the proposed daily number of:

Employees:

Customers:

Guests:

Visitors of the Facilities:

Employees that will Reside on the Subject Property:

(2) Please list the days and hours of operation of the facilities, and the total number of days of operation/year.

Days and Hours:

Total Number of Days/Year:

(3) Please describe how security will be provided.

(4) For projects that involve gas stations, please indicate the proposed number of fuel pumps. For projects that do not involve gas stations, please check the "N/A" box and proceed to Item F.19.c(5). **N/A**

Fuel pumps

(5) For projects that involve car washes, please indicate the proposed number of stalls. For projects that do not involve car washes, please check the "N/A" box and proceed to Item F.19.c(6). **N/A**

Stalls

(6) For projects that involve hotels, schools, hospitals, or care facilities, please indicate the proposed number of each of the following. For projects that do not involve these types of uses/facilities, please check the "N/A" box and proceed to Item F.19.c(7). **N/A**

Rooms of the building

Guests

Clients

(7) Please describe any uses, operations, or structures that would produce light, glare, or heat, as well as any methods that would be used to shield, enclose, or otherwise control the light, glare, or heat. If the project would not produce light, glare, or heat, please check the "N/A" box and proceed to Item F.19.d. **N/A**

d. Wireless Communications Facilities: For projects involving wireless communications facilities, please provide the Federal Communications Commission Lease Agreement number or FRN number. For all other projects, please check the "N/A" box and proceed to Item F.19.e. **N/A**

Lease Agreement Number:

FRN Number:

e. Mining Projects: For all projects involving mineral resource extraction projects, please submit a Mining Reclamation Plan that meets the requirements of the Surface Mining and Reclamation Act ("SMARA"). Please see the following website for the requirements of a Mining Reclamation Plan: <http://www.conservation.ca.gov/omr/Pages/index.aspx>. If after reviewing the SMARA requirements you have additional questions, please contact Brian McCarthy at (805) 654-5037 or brian.mccarthy@ventura.org. For all other projects, please check the "N/A" box and proceed to Item F.20. **N/A**

f. Oil and Gas Exploration and Production: For all projects involving oil and gas exploration and production, please answer the following questions: For projects that do not involve oil and gas exploration, please check the "N/A" box and proceed to Item F.20. **N/A**

(1) Will hydraulic fracturing, acid well stimulation treatment, or other well stimulation treatments be performed? (per Public Resources Code §3150 seq.) For projects that do not involve well stimulation treatments please check "No" box and proceed to Item F.20

Yes

No

(2) What hazardous materials will be used as part of the well stimulation treatment and in what quantities? (per Public Resources Code §3160)

(3) How much water will be used for the well stimulation and where will it come from (supply source)? (per Public Resources Code §3160(b)(2)(D) and §3160(d)(1)(C))

(4) How much liquid waste will be generated from the well stimulation treatments and where will it be disposed of? (per Public Resources Code §3160 seq.)

F.20. Tract Map, Parcel Map and Parcel Map Waiver Supplemental Information

For Tract Map, Parcel Map, and Parcel Map Waiver applications, please submit the following information that is required for your application. For all other projects, please check the “N/A” box and proceed to Item F.21. **N/A**

- a. For all Tract Map and Parcel Map applications, **please submit an original and one copy of a signed Public Easement Certification Form.**³² For all other projects, please check the “N/A” box and proceed to Item F.20.b. **N/A**
- b. For all Tract Map, Parcel Map, and Parcel Map Waiver applications, **please submit a Preliminary Title Report** and title policy that are less than one year old and current, showing evidence of insurability for all parcels involved in the project.³³ For all other projects, please check the “N/A” box and proceed to Item F.20.c. **N/A**

³² A Public Easement Certification Form is available at the Planning Division Public Information Counter.

³³ For Parcel Map Waiver applications, do not change ownership or lenders during the processing of the Parcel Map Waiver application as it may void processing and delay your project.

- (5) One original of the **Lender's Acknowledgment form**,³⁶ signed and notarized by all lenders wherein the subject parcels are used as collateral for a loan, if financed.

F.21. Legal Lot Requirement Has the Planning Division issued a Preliminary Legal Lot

Determination for the property?

Yes **No**

- a. If the answer is “no,” please proceed to Item F.21.b. If the answer is “yes,” what was the finding of the Preliminary Legal Lot Determination?
- b. If the Planning Division has not issued a Preliminary Legal Lot Determination for the property, please describe by what means (e.g, Tract Map, Parcel Map, Lot Line Adjustment, Voluntary Merger, or Certificate of Compliance) the property gained its current configuration, making sure to include the map citation (e.g., “8 MR 14 36 PM 4”) or project case number (e.g., “PMW 1046” or “SD06-0031”). However, if the Planning Division has not issued a Preliminary Legal Lot Determination for the property, and you do not have information on the means by which the property gained its configuration, please submit an application for a Preliminary Legal Lot Determination prior to submitting an application for your project.³⁷ If the project does not require a Preliminary Legal Lot Determination, please check the “N/A” box. **N/A**

F.22. Existing Physical Features and Development on, and Surrounding, the Project Site

- a. Please describe the physical features of the project site. Physical features that should be described include, but are not limited to:
- Creeks, streams, drainage facilities, drainage patterns, and all other types of wetlands.
 - Distinctive topographical and/or scenic features, such as the Pacific Ocean, mountain ranges, hillsides, and Geologic Hazards Areas.³⁸
 - Wildlife habitat (e.g., woodlands or chaparral habitat).

³⁷ For more information on how to determine if a project site would be located on a legal lot, and for Preliminary Legal Lot Determination applications, please see <https://vcrma.org/en/legal-lot-program>.

To determine if the project site is located within a Geologic Hazards Area, please see the Ventura County General Plan Background Report (Section 11.1)), which is available on-line at: https://docs.vcrma.org/images/pdf/planning/plans/VCGPU_11_Adopted_Hazards_Safety_September_2020.pdf.

b. For project sites that are located within rural-, agricultural-, or open space-designated areas, please describe the agricultural activities that exist on-site (e.g., types of crops that are cultivated and/or animal keeping or husbandry activities that occur). For projects that are not located within these areas, please check the “N/A” box and proceed to Item F.22.c. **N/A**

c. Please describe the physical features surrounding the project site. Please include the following physical features and indicate where they are located in relation to the project site [e.g., direction (north, south, east, or west) in relation to, and distance from, the project site]:

- Creeks, streams, drainage facilities, drainage patterns, and all other types of wetlands.
- Distinctive topographical and/or scenic features, such as the Pacific Ocean, mountain ranges, and hillsides.
- Wildlife habitat (e.g., woodlands or chaparral habitat).
- Local access to the project site including (but not limited to) County and city roadways, as well as private roadways or driveways.
- Regional access to the project site, which typically consists of State and Federal freeways and highways.
- If agricultural activities occur on properties that are located adjacent to the project site, please describe the types of crops that are cultivated.

d. Please describe the existing development on adjacent properties surrounding the project site by completing the following table. Please describe the types of uses (e.g., agriculture, residential, recreation, open space/vacant, retail sales, wholesale, multi-tenant office space, or manufacturing and assembly plant), buildings, and structures on properties that are adjacent to, or across a roadway from, the subject property.

Direction	Building, Structure, or Outdoor Use	Use(s)	Approximate Height or Number of Stories	Proximity to Project Site
North				
South				
East				
West				

e. Please answer the following questions related to Military Operation Areas.³⁹

(1) Is your project within 1,000 feet of a military installation?

Yes **No**

(2) Is your project beneath a low-level “military training route” flight path?

Yes **No**

(3) Is your project within a special use “restricted” airspace?

Yes **No**

F.23. Cultural Resources

a. Has the project site been subject to any archaeological, historical, and/or paleontological resource surveys?

Yes **No** **Unknown**

b. Is there a building or structure that is 50 years old or older that will be demolished or otherwise impacted the proposed development?

by

Yes **No** **Unknown**

If the project has been subject to an archaeological, historical, and/or paleontological resource survey, **please submit a copy of the report or any documentation regarding the survey** as part of your application. Please be advised that:

- If it is found that the project site is located on, or within the vicinity of, known archaeological, historical, and/or paleontological resources, or has not been previously surveyed for the presence of these resources, an analysis of potential impacts to the resources might be required as part of the environmental review of your project;
- Typically all project sites that are Designated Cultural Heritage Sites³⁹ will require an analysis of potential impacts to the cultural resources as part of the environmental review of your project;
- Buildings or structures that are 50 years or older may qualify as an historical resource, the impacts to which are required to be analyzed as part of the environmental review of the project.

³⁹ Please contact the Planning Division Public Counter to determine if the project site qualifies as a Designated Cultural Heritage Site. You will need to present the Assessor’s Parcel Number (APN) to the Planning Counter staff to obtain this information.

³⁹ In accordance with State Senate Bill 1462, please respond to these questions by visiting the County of Ventura’s public mapping tool “County View,” located at <https://maps.ventura.org/countyview/>. Once you have located your project’s appropriate parcel, click “Parcel Report.” Once the Parcel Report opens, scroll down to “Hazards” to find the subsection titled “Military Operations Area.” The information presented in the Parcel Report will assist you in answering the questions

- Buildings or structures that are at least 50 years old might qualify as historical resources, the impacts to which are required to be analyzed as part of the environmental review of the project. Pursuant to the 2040 General Plan, the project applicant shall retain a qualified architectural historian according to the Secretary of the Interior Standards, to record it on a California Department of Parks and Recreation DPR 523 form or equivalent documentation, if the building has not previously been evaluated;
- If it is determined during the environmental review that a site has potential archaeological, tribal, architectural, or historical significance, the Ventura County Cultural Heritage Board shall be provided an opportunity to review the project to include recommendations specific to the discretionary project and identified resource(s);
- All structures and sites that are designated or eligible for designation as County Landmarks are required to be preserved as a condition of discretionary development;
- In all feasible circumstances, discretionary development projects are required to adaptively reuse architecturally or historically significant buildings; and
- Discretionary development projects are required to incorporate architectural designs and features that reflect the historical and cultural traditions characteristic to the area or community.

F.24. Biological Resources

Has an Initial Study Biological Assessment (ISBA) been conducted by a Qualified Biologist for this project?

Yes No

If No, be advised that all projects that could impact sensitive biological resources must provide an ISBA with the project application. This includes projects that are located-on or adjacent-to land with native vegetation and/or trees, on land within 300 feet of watercourses or wetlands, on land used by animals for movement between habitats, or on land that provides other habitat for sensitive species. Discuss your specific project with the Planning Division staff to determine if an ISBA will be required.

F. 25. Protected Trees

Will any trees protected by the Ventura County Tree Protection Ordinance be potentially impacted by this project?

Yes No

Note: Potentially impacted trees include not only the protected trees that are directly part of this request, but also any other protected trees whose tree protection zones (TPZs) are within 20 feet the limits of the construction area (including access drives and utility easements). This includes trees growing on adjacent parcels if their TPZ extends onto the subject parcel. The TPZ extends out from the trunk to 5 feet beyond the dripline, or a minimum of 15 feet from the trunk, whichever is greater.

If Yes, provide the following information.

- Has an Arborist Report, prepared in compliance with the Content Requirements for Arborists Reports, been submitted? **Yes No** (If No, please consult with the Planning Division.)
- Has all other required documentation per the *Submittal Requirements for Tree Permits & Authorizations* been submitted? **Yes No Unsure**

c. Number of prior protected trees removed from the parcel for reasonable access to or use of property:

No. of oaks: No. of sycamores: No. of other protected trees: Unknown

d. Number of prior protected trees removed from the parcel for agriculture within the last 12 months?

No. of trees: Unknown

e. Provide the following information about any potentially impacted protected trees. Complete one row for each tree or stand of trees of the same species, heritage status, action and general location.

ID #	No. of Trees	Tree Species	Heritage (90+ inches girth*)	Action (remove, alter, encroach)	Tree Location (include reference to a fixed landmark)
<i>Ex.</i>	<i>5</i>	<i>Oak</i>	<i>No</i>	<i>Remove</i>	<i>Back of lot; near SE corner of proposed building.</i>
1					
2					
3					
4					
5					

*Girth is the circumference of the trunk, generally measured at 4.5 feet above the ground. (This position may vary depending upon where the waist of the tree is—the narrowest trunk point is typically the goal—and many other factors.) If there are multiple trunks, measure each and add their measurements together; for heritage trees only the two largest trunks are measured.

f. Have any of the above actions (removal, alteration, encroachment) already occurred?

Yes No

If Yes, explain (include tree or tree stand ID#):

Date work was performed:

g. Reason for the above request (indicate if more than one reason, e.g., one oak tree (ID# 1) is hazardous per Arborist Report and 4 oak trees (ID# 2-4) need to be removed to construct building):
