In order to waive or modify a development standard, the applicant shall demonstrate in writing that a waiver or modification of the standard is necessary for the provision of public safety services, and that such waivers or modifications do not exceed what is necessary to remove the effective prohibition.

Article 7, Section 8107-45.5 – Compliance with Federal, State and Local Law and Regulations, of the Ventura County Ordinance Code, pertaining to wireless communication facilities, is hereby amended to read as follows:

Sec. 8107-45.5 – Compliance with Federal, State and Local Law and Regulations

- b. *Collocations* on an existing *wireless communication facility* that are included in and authorized by the existing permit.
- c. *Collocation* on an existing *building-concealed facility* that is subject to an existing *County* permit, or an increase to the size of existing *antennas* within a *building-concealed facility* that is subject to an existing *County* permit, when the proposed *modifications* do not result in changes to the external features of the *building-concealed facility* (such as a *building's* architectural features) and when the proposed *wireless communication facility* equipment remains hidden within the *building-concealed facility*.
- d. Additional equipment mounted onto an existing *wireless communication facility*, excluding *collocation*, that is attached behind and concealed by existing directional panel or dish *antenna*, or that is concealed by an existing stealth design feature.

Photographic or other visual evidence shall be supplied that demonstrates the additional equipment will not be visible from any *public viewpoint*.

- f. New or replacement equipment cabinets or shelters that are physically located within the existing, permitted site area, and when the new or replacement equipment is screened by existing *vegetation* or fencing if visible from a *public viewpoint*, and when the new or replacement equipment does not generate noise that exceeds permitted levels.
- g. *Non-commercial antenna* mounted on an existing commercial or public safety *wireless communication facility* when the *antenna* is not visible from a *public viewpoint* and would not increase the *height* of the *wireless communication facility*.
- h. *Modifications* that constitute a *Section 6409(a) Modification*, provided that each *modification* is in conformance with Section 8107-45.4(h). Sec. 8107-45.10.2 – Facility Modifications Subject to a Permit Adjustment

Modifications to a *wireless communication facility* that cannot be processed with a Zoning Clearance, pursuant to Section 8107-45.10.1 above, may be processed with a Permit Adjustment, provided that the *modifications* would not alter the findings made for the existing permit (see Sections 8111-1.2.1.1 through 1.2.1.8 of this Chapter), nor any findings contained in the environmental document, and further provided that the proposed *modifications* satisfy each of the following criteria as applicable:

- a. New or replacement equipment cabinets or shelters would not generate noise that would exceed originally permitted levels and are not *prominently visible* from a *public viewpoint*;
- b. Alterations to the approved landscaping plan are in compliance with the standards in Section 8107-45.4(q) and may result in replacement *vegetation* or additional *vegetation* for screening purposes;
- c. *Modifications* to the facility design and operation would be consistent with the facility's original design and permitted conditions of approval. Proposed changes to a *stealth facility* shall retain the necessary features to ensure the facility remains stealth, as stated in Section 8107-45.4(i);
- d. *Modifications* would only involve *grading* of a previously disturbed site; and
- e. *Modifications* would not result in a replacement, *modification*, or a series of replacements or *modifications* to a *wireless communication facility* that cumulatively constitute an increase in physical dimensions of 10 percent or more in any one or more of the following:
 - *Height* or width of the *antenna* or associated equipment;

- Circumference of the *antenna*, mast, or pole;
- Distance of the *antenna* array from the support *structure*;

Sec. 8107-45.13 – Nonconforming Wireless Communication Facilities

Any *wireless communication facility* rendered nonconforming solely by the enactment or subsequent amendment of the development standards stated in Section 8107-45.4 shall be considered a legal nonconforming *wireless communication facility* subject to the following provisions.

Article 7, Section 8107-45.13.1 – Modifications to Nonconforming Wireless Communication Facilities, of the Ventura County Ordinance Code, pertaining to wireless communication facilities, is hereby amended to read as follows:

Sec. 8107-45.13.1 – Modifications to Nonconforming Wireless Communication Facilities

If a *modification*, other than a permit time extension, is proposed to a legal nonconforming *wireless communication facility*, the *modification* may be authorized through a permit modification processed pursuant to Section 8107-45.10 provided that both of the following apply:

- a. The *modification* itself conforms to current development standards in Section 8107-45.4; and
- b. The *modification* can be processed with a Zoning Clearance (see Section 8107-45.10.1), Permit Adjustment (see Section 8107-45.10.2) or Minor Modification (see Section 8111-6.1.2).

Permit modifications granted pursuant to this section may include, but are not limited to, conditions requiring the *permittee* to upgrade the legal nonconforming *wireless communication facility* in order to reduce the level of nonconformance with current development standards.

Article 7, Section 8107-45.14 – Abandonment, of the Ventura County Ordinance Code, pertaining to wireless communication facilities, is hereby amended to read as follows:

Sec. 8107-45.14 – Abandonment

A *wireless communication facility* that is not operated for a period of 12 consecutive months or more from the final date of operation shall be considered an abandoned

A Conditional Use Permit may authorize up to 60 *outdoor events* per calendar year on a *lot* during an initial term. If the initial term is completed, a Conditional Use Permit may be renewed through a permit modification to allow up to 90 events per calendar year on the *lot* during each subsequent term. A Conditional Use Permit shall have a 5-year initial term, or such shorter term as requested by the *applicant*. If the initial term is completed, a Conditional Use Permit may be renewed through permit modifications with subsequent terms of 10 years each, or such shorter terms as requested by the *applicant*.

Article 7, Section 8107-46.5 – Processing and Consideration of Conditionally Permitted Outdoor Event Permit Applications, of the Ventura County Ordinance Code, pertaining to outdoor events regulations, is hereby amended to read as follows:

Sec. 8107-46.5 – Processing and Consideration of Conditionally Permitted Outdoor Event Permit Applications

- a. No application for a Conditional Use Permit pursuant to Section 8107-46.4 shall be accepted for processing if final violations (i.e., violations that were not timely appealed or were confirmed after timely appeal) have been issued for holding two or more *outdoor events* on the *parcel* within the previous 24 months without a Conditional Use Permit if required pursuant to Section 8107-46.4.
- b. Applications for all Conditional Use Permits under Section 8107-46.4, and applications for all *discretionary* modifications thereto, not involving legislative actions shall be processed in accordance with the time limits set forth in the Permit Streamlining Act (Gov. Code, § 65920 et seq.), regardless of whether or not the proposed *outdoor event use* constitutes “development” as defined by Government Code section 65927. Failure to comply with any time limit set forth in the Permit Streamlining Act shall not constitute a basis for the denial of any such permit application.
- c. The permit approval standards set forth in Section 8111-1.2.1.2 (Permit Approval Standards for *Outdoor Events* and *Assembly Uses*) and, if applicable to the proposed project, additional standards set forth in Section 8111-1.2.1.3 (Additional Standards for AE Zone), Section 8111-1.2.1.4 (Compliance with Other Documents), Section

8111-1.2.1.5 (Additional Standards for *Overlay Zones*), and Section 8111-1.2.1.8 (Additional Standards for *Cultural Heritage Sites*) shall be applied to all applications seeking a Conditional Use Permit pursuant to Section 8107-46.4 and applications for all *discretionary* modifications thereto.

Article 7, Section 8107-48.2.6(f) – Urban Parks Lighting, of the Ventura County Ordinance Code, is hereby amended to read as follows:

f. Allowable Light Trespass:

Outdoor lighting shall not exceed the Quantitative *Light Trespass* Limits shown in Table 1 below, measured from the property line illuminated by the light source, whenever the project site *abuts* one or more of the specified zones in Table 1. If the project site *abuts* more than one of the specified zones in Table 1, the more restrictive standard shall apply. For example, if a project site *abuts* both a single-family residential zone and a multifamily residential zone, the *light trespass* limit shall be 0.1 *foot-candles* at the property line.

Sec. 8107-50.4 – Conditionally Permitted Locally Grown Food Processing Facilities

A Conditional Use Permit is required to authorize a locally grown food processing facility if it does not meet the provisions of Section 8107-50.3.2(b) above, if required by Section 8105-4 of this Chapter, or if it is in the RA Zone.

- a. In addition to complying with the requirements of Section 8111-2 et seq. of this Chapter, *applicants* shall provide all requested information that is required by the Planning Division to process and act upon the application based upon the applicable standards. This includes, but is not limited to, a written description of the proposed type, scale, net acreage (as calculated per Section 8107-50.2(c) above), and intensity of the locally grown food processing facility, including all existing and proposed *structures, buildings, equipment, and other above- and below-ground improvements* that would be utilized for the facility.

Section 7

ARTICLE 8: PARKING AND LOADING REQUIREMENTS

Article 8, Section 8108-5.4.2 - Pedestrian Safe Access, of the Ventura County Ordinance Code, under Section 8108-5 (Motor Vehicle Parking Design Standards) and subsection 8108-5.4 (Circulation) as it pertains to parking and loading requirements, is hereby amended to read as follows:

Sec. 8108-5.4.2 - Pedestrian Safe Access

- a. *Parking areas* serving commercial, institutional, and *multifamily dwelling* land uses shall not impede safe and direct pedestrian access from the street or sidewalk to *building* entrances.
- b. At least one pedestrian pathway shall be provided from the street or sidewalk to the primary *building* entrance. If not completely separated from vehicular traffic, pedestrian pathways shall be clearly designated using a raised surface, distinctive paving, bollards, special railing, or similar treatment. Such pathways shall be in compliance with the California Building Standards Code (California Code of Regulations, Title 24) and the Americans with Disabilities Act. Pathways shall be designed to have minimal direct contact with traffic and prevent parked vehicles from overhanging the pathways. The use of pervious surface materials for pedestrian pathways is encouraged.
- c. Where feasible, parking rows shall be perpendicular to the main *building* entrance(s) or main pedestrian pathway(s) to assist safe pedestrian movement toward the *building*.
- d. Where *cross access* is provided, it shall be designed, established, and maintained so that internal *drive aisles*, parking spaces, and pedestrian paths assure safe pedestrian access to adjacent land uses, and adjacent *parking areas*.
- e. Where pedestrian routes cross *driveways* such crossings shall be clearly marked.
- f. If parking is designed to allow vehicle overhang into a pedestrian pathway, the pathway width shall be increased by at least 2 feet. Pedestrian pathways adjacent to a *building* shall be in compliance with the California Building Standards Code (California Code of Regulations, Title 24) and the Americans with Disabilities Act.

Article 8, Section 8108-5.14.3- Perimeter Landscaping and Screening, of the Ventura County Ordinance Code, under Section 8108-5 (Motor Vehicle Parking Design Standards) under subsection 8108-5.14 (Landscaping and Screening) as it pertains to parking and loading requirements, is hereby amended to read as follows:

Sec. 8108-5.14.3 - Perimeter Landscaping and Screening

- a. Adjacent to Streets: Where *parking areas* are not visually screened from any adjacent public or private street by an intervening *building* or *structure*, the following requirements apply:
 - (1) Planter Width: A minimum 8-foot-wide (inside dimension, inclusive of any bumper overhang) landscape planter shall be provided between the street

and the *parking area*, except at *driveways*, pedestrian pathways, and other pedestrian spaces.

- (2) Screening Materials and Height: Visual screens, measuring 3 feet in *height* from the top of the pavement, shall be provided. Where the ground level adjoining the street is below street *grade*, the visual screen *height* may be reduced by the difference in levels. Where the ground level adjoining the street is above street *grade*, the visual screen *height* may be reduced as determined appropriate by the *Planning Director* or designee.

The visual screen shall be composed of a berm or solid wall, plus plant material that softens the look and breaks up the expanse of the screen. Plant material may be used as the main screening element only if a minimum of 50 percent of the plants are of 15-gallon container size when planted, the rest are of 5-gallon container size, and the plants form a dense hedge. Where walls are used, the preferred location is in the middle of the 8-foot planter so that the planter may also serve as a bumper overhang and so that trees may be planted on both sides of the wall. Walls may also be placed behind the plant material, relative to the street.

Where earth berms are used, the berm slope shall be a maximum of 1 foot of rise for every 3 feet of linear distance (3:1 horizontal to vertical).

- (3) Trees and Shrubs: Trees shall be provided at a minimum rate of 1 for each 30 linear feet of landscape planter or fraction thereof, and at least one per planter. Shrubs shall be provided as needed to meet screening requirements, but no less than one for every five linear feet of landscape planter or fraction thereof. See Section 8106-8.2.3 for additional tree and shrub planting requirements.
 - (4) Large Projects: *Parking areas* with more than 100 motor vehicle spaces shall provide a concentration of landscape elements at primary entrances, including specimen trees, flowering plants, and special design elements. Public art may be used, and is encouraged, in conjunction with these elements. Such art should meet the provisions of Section 8108-5.14.2(a)(2)(ii) above.
 - (5) Bus Shelters: Bus shelters may be located within the perimeter landscape planters, but shall not be placed so as to reduce the number of required trees.
 - (6) Public Art: Public art may be provided in perimeter landscape planters that are viewable by the general public, in lieu of two required trees. Such art shall meet the provisions of Section 8108-5.14.2(a)(2)(ii) above.
- b. Adjacent to Residential Land Uses: Where *parking areas* and associated *driveways* adjoin residentially zoned property or ground-floor residential land *uses*, a solid masonry wall or other adequate barrier/screening measure that mitigates any potential impacts between two incompatible *uses* (e.g., parking lot and adjacent residential land use), as determined by the *decision-making authority*, shall be installed and maintained along the common property line. The required barrier/screening shall be at least 6 feet in *height*. Said barrier/screening shall not be more than 3 feet in *height* within the *front setback* of the *abutting* residentially zoned property.
 - c. Side and Rear Property Lines: Perimeter planters are encouraged where a *parking area* or *driveway* adjoins a side or rear property line. Side and rear perimeter

planters shall be a minimum of 2 feet wide (inside dimension) when the planters do not include trees and a minimum of 4 feet wide (inside dimension) when the planters include trees.

Article 8, Section 8108-5.14.4- Interior Landscaping, of the Ventura County Ordinance Code, under Section 8108-5 (Motor Vehicle Parking Design Standards) under subsection 8108-5.14 (Landscaping and Screening) as it pertains to parking and loading requirements, is hereby amended to read as follows:

Sec. 8108-5.14.4 - Interior Landscaping

Parking areas shall include interior landscaping as outlined below. *Parking structures* and *covered parking* spaces are exempt from these specific requirements but may be conditioned on a case-by-case basis to ensure that the purposes of this section are met.

- a. Amount Required: Interior landscaping shall account for 10 percent of the *parking area*, excluding the area of required perimeter landscaping.
- b. Tree Spacing: Trees shall be spaced out evenly throughout the *parking area* to maximize shading of pavement. At a minimum, one shade tree shall be provided in interior planters for every four adjacent motor vehicle parking spaces (eight total spaces in double-sided parking rows) or equivalent area of motorcycle spaces.
- c. Interior Planter Dimensions:
 - Finger Planters: Finger planters are planters adjacent to the long side of parking spaces. Finger planters shall measure at least 5 feet wide (inside dimension) by the length of the parking space, and shall contain one tree in single-sided rows and two trees (one per side) in double-sided rows.
 - Tree Wells: Tree wells shall be sized in accordance with Section 8106-8.2.3 (d)(3) and (4).
 - Strip Planters: Strip planters in front of or between rows of parking spaces shall measure at least 4 feet wide (inside dimension).
- d. Pedestrian-Orientated Design: Landscaping shall be designed so that pedestrians are not likely to cross landscape planters to reach *building* entrances from parked vehicles. This may be achieved through orientation of the landscape planters away from pedestrian pathways, use of pedestrian pathways or barriers to keep pedestrians out of planters.
- e. Preferred Layout: The preferred layout of interior landscaping of *parking areas* is set forth below. The *decision-making authority* shall consider this preferred layout, together with any site constraints, in approving *parking area landscape plans*.
 - (1) Ends of Parking Rows: The ends of each row of parking spaces should be separated from *drive aisles*, *driveways*, or *buildings* by a finger planter (as described in subparagraph (2) below) or sidewalk.
 - (2) Double-sided Parking Rows: One finger planter with two trees (one per row) per 12 adjacent spaces, or fraction thereof, should be provided. Between finger planters either two tree wells (one per eight spaces) or a continuous planter containing two trees (one per eight spaces) should be provided.

- (3) Single-sided Parking Rows: One finger planter with one tree per 16 adjacent spaces, or fraction thereof, should be provided. Between finger planters either three tree wells (one per four spaces) or a continuous planter containing three trees (one per four spaces) should be provided.

Article 8, Section 8108-5.14.5- Stormwater Management Landscaping, of the Ventura County Ordinance Code, under Section 8108-5 (Motor Vehicle Parking Design Standards) under subsection 8108-5.14 (Landscaping and Screening) as it pertains to parking and loading requirements, is hereby amended to read as follows:

Sec. 8108-5.14.5 – Stormwater Management Landscaping

Stormwater management landscape planters in *parking areas* shall meet the following criteria:

- a. Their location shall not interfere with the movement of vehicles, pedestrians, or bicycles.
- b. The designed water flow shall not cause erosion of infrastructure or damage to other required *parking area* features.
- c. They may count toward required *parking area* landscaping if the following criteria are met:
 - (1) The *stormwater management landscaping* does not compromise the number, type, size, location, or health of the required trees. Required trees shall be planted well above the flow line of basins or channels.
 - (2) The *stormwater management landscaping* does not compromise the screening, shading, or other purposes of Section 8108-5.14.1 above.
 - (3) The stormwater management landscaping is consistent with Sections 8106-8.2.3 and 8106-8.2.7, where applicable.
 - (4) Planters containing trees shall be a minimum of 8 feet wide (inclusive of bumper overhang).

Section 9

ARTICLE 11: ENTITLEMENTS – PROCESS AND PROCEDURES

Article 11, Section 8111-1.1 – Ministerial Entitlements and Modifications, of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8111-1.1 - Ministerial Entitlements and Modifications

These *entitlements*, and modifications thereto, are granted based upon determinations, arrived at objectively and involving little or no personal judgment, that the request complies with established standards set forth in this Chapter. Such will be issued by the *Planning Director* or designee without a public hearing.

Article 11, Section 8111-1.1.1 – Zoning Clearance: Purpose Of, of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8111-1.1.1 - Zoning Clearance: Purpose Of

A Zoning Clearance certifies that a proposed *use* of land or *structures*, or construction or demolition of *structures*, is consistent with the provisions of this Chapter and any applicable conditions of any previously issued *entitlement*, and the *use* or *structure* may be inaugurated. Where no other Planning Division-issued *entitlement* is required, a Zoning Clearance also serves as an *entitlement* granted for as long as the subject *use* or *structure* is in compliance with the applicable requirements of this Chapter. More than one Zoning Clearance may be required and issued for the same property and one Zoning Clearance may be issued for multiple purposes.

- a. Zoning Clearance, Applicability Of: A Zoning Clearance is required prior to any of the following actions occurring. To be valid, it shall specify for which of the following purposes it is being issued:
 - (1) *Inauguration* of construction or demolition of a *structure*, unless exempted pursuant to Sections 8105-4 and 8105-5 of this Chapter;
 - (2) *Inauguration* of a *use* of land, *structures*, or facilities, including a *change of use* where a new *use* replaces an existing one, unless exempted pursuant to Sections 8105-4 and 8105-5 of this Chapter;
 - (3) Issuance of a Certificate of Occupancy pursuant to the Ventura County Building Code; and
 - (4) Maintenance, alteration, demolition, improvement, construction, and the like of any *landmark* or component of a historic *district*. Such work would include *building* exterior surface modifications, re-roofing, installation of new windows, and the like for which a Zoning Clearance is not otherwise required. Prior to the issuance of a Zoning Clearance pursuant this Section 8111-1.1.1(a)(4), a *Certificate of Appropriateness shall be issued pursuant to the Ventura County Cultural Heritage Ordinance*.
 - (5) Construction or demolition activities and the like at any *site of merit*, or any site which is potentially eligible to become a designated *cultural heritage site*, as described in the Ventura County Cultural Heritage Ordinance. Prior to the issuance of a Zoning Clearance pursuant to Section 8111-1.1.1(a)(5), a *Certificate of Appropriateness* or *Certificate of Review*, as appropriate, shall be issued pursuant to the Ventura County Cultural Heritage Ordinance.

- b. Zoning Clearance, Issuance of: A Zoning Clearance shall be issued if the proposed use of land, structures, or construction:
- (1) Is permissible under the present zoning on the land and complies with the standards of Division 8, Chapters 1 and 2 of the Ventura County Ordinance Code;
 - (2) Is compatible with the policies and land use designations specified in the *General Plan*;
 - (3) Complies with the applicable terms and conditions of any applicable permit or other *entitlement* granting the use in question, and the decision granting said permit is considered "effective" pursuant to Section 8111-4.4;
 - (4) Is not located on the same *lot* where a violation exists of standards found in said Chapters 1 and 2 or of any Ventura County Ordinance regulating land use, such as the Ventura County Building Code or any *grading* ordinance, or of the terms of an existing permit covering the *lot*, unless the Zoning Clearance is necessary for the abatement of the existing violation or authorizes an ADU or JADU pursuant to Section 8107-1.7 of this Chapter;
 - (5) Is not being requested by or for the same party that owes the *County* fees or billings, fines, civil penalties, or forfeitures associated with this Chapter;
 - (6) Is consistent with the *General Plan*, Hazards and Safety Element, Policy HAZ-5.8 (Siting Criteria for Hazardous Waste Generators), as may be amended;
 - (7) Is located on a *legal lot*; however, a Zoning Clearance may be issued on an illegal *lot* but only in situations when issuing the Zoning Clearance would not constitute an "approval for development" or otherwise require the *County's* subsequent issuance of a Certificate of Compliance for the illegal *lot* under the Subdivision Map Act pursuant to Government Code sections 66499.34 and 66499.35 (see Chapter 2, Section 8214-3 of the Ventura County Ordinance Code for guidance);
 - (8) Is being undertaken by an owner and/or tenant, who, along with the associated contractors and agents, are in compliance with the Ventura County Business License Tax Ordinance;
 - (9) Is determined to be consistent with conditions and requirements established by the Ventura Countywide Stormwater Quality Management Program, Los Angeles Regional Phase I Municipal Separate Storm Sewer System National Pollutant Discharge Elimination System (Los Angeles Regional Phase I MS4 NPDES) Permit No. CAS004004 and the Ventura Stormwater Quality Management Ordinance No. 4450, as these permits and regulations may be amended; and
 - (10) Has, in the case of a designated or potentially eligible *cultural heritage site* been issued a *Certificate of Appropriateness* or *Certificate of Review*, or is otherwise authorized to proceed with the project in compliance with the Ventura County Cultural Heritage Ordinance. Any Zoning Clearance requested for a designated *cultural heritage site* issued a Planned Development Permit pursuant to Section 8107-37 et seq. shall also comply with the provisions of that permit.
- c. Zoning Clearance, Expiration and Extensions of: Zoning Clearances shall expire and may be extended in accordance with the following provisions unless specifically indicated otherwise on the Zoning Clearance or specifically indicated elsewhere in this chapter:

- (1) Zoning Clearances for which a Building Permit is Required: Zoning Clearances issued to authorize the *inauguration* of construction or demolition of *structures*, certificates of occupancy, *uses* of land, and/or other development (collectively, "Development") for which a building permit is required pursuant to the Ventura County Building Code are valid for 180 days following issuance of the Zoning Clearance during which time a complete building permit application(s) for all *structures* and other Development that are subject of the Zoning Clearance (hereafter, "Building Permit Application") must be submitted to the Building and Safety Division ("Effective Period"). The Effective Period may be extended pursuant to subsection (3) below. If a Building Permit Application is not submitted on or before expiration of the Effective Period for any or all of the *structures* and other Development requiring a building permit, the Zoning Clearance shall expire with respect to those *structures* and other Development. If a Building Permit Application is submitted prior to expiration of the Effective Period for any or all of the *structures* and other Development requiring a building permit, the Zoning Clearance shall thereafter expire with respect to those *structures* and Development if the Building Permit Application expires or requires renewal (i.e., Zoning Clearance shall expire 360 days from submittal of Building Permit Application even if Building Permit Application is renewed), is withdrawn, or is terminated without the finalized building permit being issued. If a Building Permit Application is timely submitted and a finalized building permit is issued, the Zoning Clearance shall remain valid authorizing the subject *structures* and other Development that have received all other required local, state, or federal permits, *entitlements*, and licenses so long as the Development remains consistent with the Chapter or the conditions of a previously issued *entitlement*. Notwithstanding the foregoing, if only a portion of a Zoning Clearance's *structures* and other Development receive a finalized building permit that is applied for during the Effective Period, the Zoning Clearance shall only authorize and be effective as to those specific *structures* and Development, and shall not authorize or be effective as to any other *structure* or other Development requiring a building permit.
- (2) Zoning Clearances for which a Building Permit is not Required: Zoning Clearances issued to authorize the *inauguration* of construction or demolition of *structures*, *uses* of land, and/or development (collectively, "Development") for which a building permit is not required pursuant to the Ventura County Building Code are valid for 180 days following issuance of the Zoning Clearance ("Effective Period"). The Effective Period may be extended pursuant to subsection (3) below. If the Development has not received all other required local, state, or federal permits, *entitlements*, and licenses and/or the Development has not been completed on or before expiration of the Effective Period, the Zoning Clearance shall expire. If the Development has received all other required local, state, or federal permits, *entitlements*, and licenses and the Development has been completed on or before expiration of the Effective Period, the Zoning Clearance shall remain valid to authorize the specific Development so long as it remains consistent with this Chapter or the conditions of a previously issued *entitlement*. Notwithstanding the foregoing, if only a portion of a Zoning Clearance's Development has been completed during the Effective Period, the Zoning Clearance shall only authorize and be effective as to the completed Development, and shall not authorize or be effective as to any other Development that has not been completed. For purposes of this section, "completed" shall mean when the Development is completed to the point where the property owner and/or *permittee* can use it

for its intended purpose without further work to be done or permits, *entitlements*, or licenses to be obtained.

- (3) **Zoning Clearance Extensions:** An *applicant* may file an application requesting an extension of the 180-day Effective Period with the Planning Division on the form provided. The application shall not be accepted for processing and decision unless accompanied by the required fees in accordance with the Board-adopted Fee Schedule, and may only be submitted within 30 days of expiration of the Effective Date. A one-time extension may be granted by the Planning Division for good cause shown extending the Effective Period for up to 180 days (i.e., the total, extended Effective Period may be up to 360 days), provided that (a) there are no material changes to the project or its constituent *structures* or development, (b) the project is consistent with all applicable *General Plan* policies, *entitlements*, and development standards of this Chapter in effect at the time the extension is sought, and (c) the project remains subject to the Zoning Clearance permitting requirement, as opposed to a newly enacted discretionary permitting requirement, at the time the extension is sought.

Article 11, Section 8111-1.1.2 – Zoning Clearance with Waivers, of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8111-1.1.2 - Zoning Clearance with Waivers

Various *uses* and *structures* as noted in Sections 8105-4 and 8105-5 may be allowed with a Zoning Clearance if the surrounding property owners and/or residents sign "waivers" agreeing with the proposed *use* or *structure*. The wording of the waiver shall be determined in accordance with good planning practices by the *Planning Director*, unless otherwise specified in this Chapter, and shall address such issues as the nature and operation of the *use* or *structure*, ordinance provisions to be waived, duration of the waiver, extensions, revocation provisions, and the number of parties required to be notified and to sign. Unless otherwise specified in the waiver, a waiver shall be considered completely signed when signatures have been obtained from all of the property owners of the affected property(s) or their authorized agents, and one adult resident from each legal *dwelling unit* on the affected property(s).

Article 11, Section 8111-1.2.1(c) – Discretionary Permits, of the Ventura County Ordinance Code regarding the process and procedures for an Emergency Use Authorization is hereby amended to read as follows:

Sec. 8111-1.2.1 - Discretionary Permits

- (c) **Emergency Use Authorization (EUA):** The *Planning Director* may authorize, by letter and without a hearing, a *use* or *structure* in an *emergency* situation where delay incident to the normal processing of an application would be physically detrimental to the health, safety, life, or property of the *applicant* or the public. An Emergency Use Authorization may only be granted in accordance with the following standards:
- (1) If directly related to an earthquake, flood, tsunami, landslide, *chemical* spill, collision, explosion, or similar disaster or catastrophic physical change that has occurred or is imminent. An Emergency Use Authorization may also be granted under other circumstances if the magnitude of the impacts on the public or the *applicant* are, or can be expected to be,

comparable to those attributed to the disasters and catastrophic changes referenced above.

- (2) An Emergency Use Authorization shall be valid for a period for no more than 180 days. Where the *use* or *structure* is intended to continue beyond 180 days, application for the appropriate permit shall be made to the appropriate *decision-making authority* in the usual manner within 30 days after issuance of the Emergency Use Authorization.
- (3) The standards of Sections 8111-1.2.1.1 through 8111-1.2.1.8 of this Chapter as applicable to the location and *use*.

Article 11, Section 8111-1.2.1.1a – General Permit Approval Standards, of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8111-1.2.1.1 – General Permit Approval Standards

Planned Development and Conditional Use Permits shall be granted if all billed fees and charges for processing the *application request* that are due for payment have been paid, and if all of the following standards are met, or if such conditions and limitations, including time limits, as the *decision-making authority* deems necessary, are imposed to allow the standards to be met. The *applicant* shall have the burden of proving to the satisfaction of the appropriate *decision-making authority* that the following standards can be met. Specific factual findings shall be made by the *decision-making authority* to support the conclusion that each of these standards, if applicable, can be satisfied.

- a. The proposed development is consistent with the intent and provisions of the *General Plan* and of Division 8, Chapters 1 and 2, of the Ventura County Ordinance Code;
- b. The proposed development is compatible with the character of surrounding, legally established development;
- c. The proposed development would not be obnoxious or harmful, or impair the utility of neighboring property or *uses*;
- d. The proposed development would not be detrimental to the public interest, health, safety, convenience, or welfare;
- e. For Conditional Use Permits only, the proposed development is compatible with existing and potential land *uses* in the general area where the development is to be located;
- f. The proposed development will occur on a *legal lot*; and
- g. The proposed development is approved in accordance with *CEQA* and all other applicable laws.

In analyzing whether the above standards have or have not been met, the *decision-making authority* shall consult and consider the relevant factors identified in Article 9, section 8109-0, et seq. of this Chapter. If all applicable standards cannot be satisfied, specific factual findings shall be made by the *decision-making authority* to support that conclusion.

Article 11, Section 8111-1.2.1.1b – Permit Approval Standards for Outdoor Events and Assembly Uses, of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8111-1.2.1.2 – Permit Approval Standards for Outdoor Events and Assembly Uses

Conditional Use Permits authorizing *outdoor events* and *assembly uses* shall be granted if all billed fees and charges for processing the application that are due for payment have been paid and if all of the following standards are met. An application for a Conditional Use Permit shall not be denied on the basis of the content of protected expression associated with the proposed *use*. The *applicant* shall have the burden of proving to the satisfaction of the appropriate *decision-making authority* that the following standards can be met. Specific factual findings shall be made by the *decision-making authority* to support the conclusion that each of these standards, if applicable, can be satisfied.

- a. The proposed *use* is compliant with applicable provisions of the *General Plan* and of Division 8, Chapter 1 of the Ventura County Ordinance Code;
- b. The proposed *use* can coexist in relative proximity, and is not expected to unduly interfere with, the existing land *uses* of the surrounding area as determined based on the following land use factors:
 - (1) Whether the proposed *use* would generate off-site noise louder than ambient noise levels by considering: (i) the volume and times of day such noise would be generated; (ii) the proximity of the proposed *use* to the nearest off-site noise sensitive receptors such as *dwellings*, schools, *hospitals*, nursing homes and libraries; (iii) the topography of the surrounding area likely to affect how noise travels; and (iv) the existence of other nearby uses likely to generate off-site noise at similar times; and
 - (2) Whether the proposed *use* would generate vehicular traffic affecting the level of service of a road segment or intersection located within one mile of the proposed *use* as determined pursuant to Section 27a(1), "Transportation & Circulation – Roads and Highways – Levels of Service (LOS)," of the *County's* Initial Study Assessment Guidelines (ISAG), as such section may be amended or renumbered;
- c. The proposed *use* would not be detrimental to public health and safety as determined based on the following land use factors:
 - (1) Whether public and private roads and *driveways* used to *access* the site of the proposed *use* can safely accommodate all vehicular traffic associated with the proposed *use*, including *emergency* vehicles, and meet all applicable requirements of the Ventura County Fire Code; and
 - (2) Whether the proposed *use* or site of the proposed *use* would create risk of harm to persons, nearby properties, or the environment based on fire hazards, geologic hazards, flood hazards, *hazardous materials*, or increased risk of vandalism or trespass that cannot be controlled through reasonable event security.
- d. The proposed *use* will occur on a *legal lot*; and
- e. The proposed *use* is approved in accordance with *CEQA* and all other applicable laws.

If all standards cannot be satisfied, specific written factual findings shall be made by the *decision-making authority* to support that conclusion.

- a. That the establishment or maintenance of this *use* will not significantly reduce, restrict or adversely affect agricultural resources or the viability of agricultural operations in the area;
- b. That *structures* will be sited to minimize conflicts with *agriculture*, and that other *uses* will not significantly reduce, restrict or adversely affect agricultural activities on site or in the area, where applicable; and

- a. That there are special circumstances or exceptional characteristics applicable to the subject property with regard to size, shape, topography, location or surroundings, which do not apply generally to comparable properties in the same vicinity and zone; and

- a. The required amount of the surety(s) may be increased periodically by the *Planning Director* in order to compensate for inflation (based on the applicable regional Consumer Price Index) or other factors, so that the same relative value of the surety is maintained over the life of the permit, and to assure that performance sureties continue to reflect the actual anticipated costs for completing a required task. No

surety shall be released until after all of the applicable conditions of the permit have been met.

- b. In the event of any failure by the *permittee* to perform or comply with any term or condition of a discretionary *entitlement*, the *decision-making authority* may, after notice to the *permittee* and after a public hearing, determine by resolution the amount of the penalty or other surety forfeiture, and declare all or part of the surety forfeited. - c. The *permittee* shall maintain the minimum specified amount of a surety throughout the life of the *entitlement*. Within 30 days of any forfeiture of a surety, the *permittee* shall restore the surety to the required level.

Sec. 8111-2.9.2 - Late Filing Fees

Where a *use* actually commences, or construction to that end is commenced, prior to the granting of required *County entitlements*, a late filing fee for said *entitlements* shall be collected, in addition to the required processing fees, provided that the *County* has given written notification to the property owner of the violation. If applications for the *entitlements* needed to remedy the violation have been filed within 30 days of the issuance of said notification and deemed complete within 90 days of said notification, the late filing fee shall be waived. However, if applications for the required *entitlements* needed to remedy the violation have not been filed within 30 days of the issuance of said notification, the late filing fee shall be paid by

the *applicant* prior to or at the time of the submittal of the application for the required *entitlements*. The late filing fee shall be equal to the filing fee or initial deposit of each *application request* necessary to legalize the violation as set forth in the Board-adopted Fee Schedule, but shall not individually exceed \$1,000.00. Payment of a late filing fee does not constitute a vested right and shall not relieve persons from fully complying with the requirements of this Chapter, nor from any other penalties prescribed herein.

Article 11, Section 8111-2.9.3 – Billing Method, of the Ventura County Ordinance Code, pertaining to the process and procedures for entitlements, is hereby amended to read as follows:

Sec. 8111-2.9.3 - Billing Method

Once a project has been acted upon and inaugurated or the application is either withdrawn or closed, the *applicant* shall be billed for the balance of fees and charges up to the ceiling amount as specified by the Board-adopted Fee Schedule. Should final costs be less than the deposit fee, the unused portion of the deposit shall be refunded to the *applicant*. Upon written request to the Operations Division of the Resource Management Agency, an accounting of all fees and charges billed to the *applicant* shall be made available. An *applicant* may request, or the *County* may require, incremental billing for processing costs of an *application request*. All fees and charges shall be due and payable within 30 days of the date of any billing invoice. If billed fees and charges are not paid within 30 days of the invoice date, a penalty charge of 5 percent of the unpaid balance will be added to the balance due. Each month thereafter, an interest charge of 2 percent of the unpaid balance shall be added and compounded until the bill is paid in full. Whenever fees and charges are not paid as prescribed, the *County* shall pursue collection of said fees and charges in a diligent manner, and the permit/*entitlement* is subject to revocation.

Article 11, Section 8111-2.9.4 – Failure to Pay, of the Ventura County Ordinance Code, pertaining to the process and procedures for entitlements, is hereby amended to read as follows:

Sec. 8111-2.9.4 - Failure to Pay

While the *County* may choose not to stop processing an application for which the applicable billed fees and charges have not been paid, the *County* may, after a hearing, deny such application based on the *applicant's* failure to pay said fees and charges. Such fees and charges shall include those costs associated in processing any environmental documents that might be required as a result of an application.

Article 11, Section 8111-2.11 – Consolidation of Discretionary Entitlement Applications, of the Ventura County Ordinance Code, pertaining to process and procedures for entitlements, is hereby added to the Ventura County Ordinance Code:

Sec. 8111-2.11 – Consolidation of Discretionary Entitlement Applications

If an application requesting a discretionary *entitlement* under Chapter 1 or Chapter 2 of the Ventura County Ordinance Code, and/or a *County* legislative action, and/or any other *County* discretionary permit or approval (collectively, "discretionary approval") is required for a project that includes a request for one or more other discretionary approvals, all applications seeking the discretionary approvals for the project as a whole shall be consolidated for CEQA review, public noticing, public hearing, and/or final decision in accordance with all substantive and procedural requirements applicable to each of the project's constituent discretionary approvals to the extent not in conflict with state law. All discretionary approvals shall be

consolidated and considered for final decision by the highest-ranking *County decision-making authority* (i.e., *Planning Director, Planning Commission, or Board of Supervisors*) as designated for any of the project's discretionary approvals. If a conflict exists between the procedural or substantive requirements applicable to the project's discretionary approvals, such conflicts shall be harmonized and resolved at the discretion of the *Planning Director* in consultation with County Counsel in accordance with state law.

Article 11, Section 8111-3.1 of the Ventura County Ordinance Code, pertaining to the processing and procedures for entitlements under Section 8111-3 (Notice and Hearing Procedures), is hereby amended to read as follows:

Sec. 8111-3.1.1

All hearing notices prepared pursuant to this Article shall include the date, time and place of the hearing, the identity of the hearing body or officer, a general explanation of the matter to be considered, and a general description, in text or by diagram, of the subject property.

Sec. 8111-3.1.3

In addition, if the hearing involves an application for a discretionary *entitlement* (other than an Emergency Use Authorization) or modification thereto, an appeal regarding any discretionary *entitlement*, or a zone change, zoning ordinance or *General Plan* amendment which affects the permitted *uses* of property, then a written notice, postage prepaid, shall be mailed to all of the following at least 20 days before the hearing of a zoning ordinance amendment and at least ten days before the hearing of all other discretionary *entitlements*:

- a. The owner of the subject property, or the owner's duly authorized agent;
- b. The *applicant*, if different from the owner of the subject property;
- c. Each local agency whose ability to provide essential services or facilities to the project may be significantly affected by the project; and
- d. The owners of all real property situated within a radius of 300 feet of the exterior boundaries of the Assessor's Parcel(s) which is the subject of the application. If the 300-foot radius does not include 15 or more *parcels* of real property, the radius shall be expanded until the owners of at least 15 *parcels* will be notified. Names and addresses shall be obtained from the latest equalized assessment roll. If the number of owners exceeds 1,000, a one-eighth page advertisement published at least ten days prior to the hearing in a newspaper of general circulation may be substituted for the direct mailing.

Sec. 8111-3.1.4

Notification shall also be mailed or delivered, at least 20 days prior to the hearing of a zoning ordinance amendment or at least ten days prior to the hearing of any other discretionary *entitlement*, to any person who has filed a written request for such notice with the *Planning Director* or the Clerk of the Board of Supervisors.

The *decision-making authority(s)* shall hold at least one public hearing on any duly filed application that requires a *discretionary decision* except for Permit and Variance Adjustments, requests for a Fair Housing Reasonable Accommodation, or as otherwise specifically provided in this Chapter. Public hearings shall be conducted in such a manner as to allow the *applicant* and all other interested parties to be heard and present their positions on the case in question, and shall have a record of the decision kept, along with the findings made which supported the decision. Administrative hearings shall be conducted by the *Planning Director* or designee.

Sec. 8111-4 - Decisions

Not more than 40 calendar days following the termination of hearings on an *application request* requiring a *discretionary entitlement* or *decision*, the final *decision-making authority* shall render its decision either by the adoption of a Resolution (for applications decided by the *Planning Commission*) or by the issuance of a Determination Letter (for applications decided by the *Planning Director* or designee). A Resolution or Determination Letter rendering a decision on an *application request* shall recite such conditions and limitations deemed necessary by the *decision-making authority* and shall require that all conditions requiring recordation of an interest in property, and other conditions as appropriate, shall be satisfied prior to issuance of a Zoning Clearance for the *inauguration* of any discretionary *entitlement*.

Article 11, Section 8111-4.2 – Decision Options, of the Ventura County Ordinance Code, pertaining to the process and procedures for entitlements, is hereby amended to read as follows:

Sec. 8111-4.2 - Decision Options

The *decision-making authority* hearing a discretionary matter may approve, deny or modify, wholly or partly, the request being reviewed. The *decision-making authority* may impose such reasonable conditions necessary to ensure that the project satisfies the applicable standards of permit approval. In the absence of any provision to the contrary in a decision granting a request, said request is granted as set forth in the application. All conditions and restrictions applied to a decision on an *application request* not appealed shall automatically continue to govern and limit the subject *use* or *structure* unless the action of the *decision-making authority* clearly indicates otherwise.

If such denial becomes effective, no further application for the denied request shall be filed in whole or in part for the ensuing 18 months except as otherwise specified at the time of the denial, or unless there is a substantial change in the application.
